### Protests End New Sales Tax Collection Plan Manufacturers To Collect New Federal Four Per Cent Levy

Numerous Protests Cause Bennett Government To Abandon Its Scheme of Having Wholesalers Throughout Canada Collect Its Four Per Cent Sales Tax Which It Is Asking Parliament To Approve.

Ottawa, June 8.—In the Commons this afternoon, Hon. E. B. Ryckman, Minister of National Revenue, announced the government proposed when the House went into committee on the budget resolutions to move an amendment restoring the old method of sales tax collection by the manufacturers instead of the wholesalers as provided in the Bennett budget.

Collection by the manufacturers had been the method in effect until the former brought down the budget last Monday. Coinciding with his announcement of an increase in the tax from one to four per cent came the statement the wholesalers would be the ones to collect it.

Numerous protests soon reached the government from various parts of the country. It was contended the retailers would pay a tax not only on the manufactured value, but on the wholesaler's profit as well. As the wholesaler price would be the basis for calculating the amount of the tax independent retailers complained they could be put on a difficult basis of competition with chain stores, which pay direct from manufacturers.

Mr. Ryckman told the House this afternoon the new method of collecting the tax from the wholesalers had already come into effect, but the Department of National Revenue was reverting immediately to the former system of collection.

"I desire to make the following statement to the House," Mr. Ryckman said in making the announcement. "A large number of representations have been received from the manufacturers regarding the new method of collecting the sales tax. The officials of the department were still of the opinion the new method proposed in the solution would be more effective than the old one."

The government, however, is anxious that the increased sales tax, as to the amount of which not a word of criticism has been received, should be collected with as little work by the business interests as possible. Therefore, the resolution is in committee. The government will propose they be amended so as to restore the old method of collecting the sales tax. As this does not affect the amount involved, no difficulty will be experienced."

With the fire total more than double that of last year already, indications that this will be one of the worst years on record for forest outbreaks in British Columbia are contained in the weekly report of F. Z. Caverhill, chief forester.

High temperatures and strong winds all over the province at the present time add to the seriousness of the situation and there is no sign of a marked change at present.

In the southern interior, the huge total of 232 fires has been reported to far this year, as against fifty-three in the same period last year. Hot, dry and windy weather prevails.

In the Vancouver district, which includes Vancouver Island, last week's fires brought the number for the year to 131, more than twice the number of last year.

All areas show increases, and the total for the province is 649 fires, against 217 at the same time last year, and 97 in 1929. During the last two weeks there have been more than 200 fires in various parts of the province.

Forest protection officials point out that the high fire total was caused chiefly at the early start in the season.

### Paris Goal of Atlantic Plane Pair

Of the ten planes either ready or being tuned at New York or nearby fields to attempt transatlantic flights, one is to be flown by the two men pictured above—Harold Gatty (left) and Wiley Post. They are ready, waiting for the signal from the weather man, to hop to Harbor Grace, Newfoundland, there to refuel and take off on an air voyage they hope will take them to Paris. Gatty, an Australian, will be navigator for Post, known as a cross-country racing pilot from Oklahoma. Gatty was navigator for Harold Bromley on their unsuccessful attempt to fly from Japan to Tacoma last summer.

### B.C. Social Workers' Conference Concludes

Important Talks At Sooke Sessions; Aid For Unemployed and Care of Needy Discussed at Gathering; Doctors Approve of Health Insurance.

In considering measures to lessen the number of jobless, the various types of unemployment must be borne in mind, it was pointed out at yesterday's session of the Sunshine Camp conference, held under the auspices of the B.C. Chapter of the Canadian Association of Social Workers.

The five main types are unemployment in connection with the industrial revolution, due to business depression, to the replacing of men by machinery, and to change in the use of commodities, the conference was told. Yesterday was the second and last day of the conference, Saturday being devoted mainly to a general discussion of health insurance.

People usually think of unemployment as being due to the industrial revolution, but the conference was told, yesterday was the second and last day of the conference, Saturday being devoted mainly to a general discussion of health insurance.

A new pact with Australia was under negotiation for some time, Hon. H. H. Stevens, Minister of Trade and Commerce, had several conferences with Hon. Parker Moloney, Australian Minister of Markets, both in London during the Imperial Conference and later in Ottawa, when Mr. Moloney returned by way of Canada.

In Ottawa the treaty was signed last week by Premier Bennett and Hon. H. H. Stevens, Minister of Trade and Commerce, in the presence of R. L. McGregor, Australian Trade Commissioner in Canada. The agreement was signed about the same time at Canberra, Australia.

News of the signing became public at the week.

### VICTORIA ENJOYS WEEK-END; MAINLAND HAS HEAT WAVE

The highest reading was at Spokane, ninety-four degrees, followed by Vernon and Penticton, ninety-three; Kamloops, Medicine Hat, Alta., and Swift Current, Sask., ninety; Qu'Appelle, Sask., and Portland, Ore., eighty-six; Nelson and Prince George, eighty-four; Calgary, eighty-two.

California was the hottest, of the three coast states, with maximum readings of seventy-four at Los Angeles and sixty-two at San Francisco. By contrast, frosts were recorded in Manitoba, at Winnipeg, the thermometer ranged between thirty-four and seventy degrees.

### LOWER EXPRESS OPENS WIDER BERRY MARKET

Reduction of Forty Cents a Hundred Made in Express to Great Lakes

Fort William and Port Arthur Now in Marketing Area of B.C. Growers

To extend the market for British Columbia strawberries eastward, the transcontinental railways this morning announced temporary reductions of forty cents a hundred pounds in express charges on carlot shipments to Fort William and Port Arthur. The new rate from Victoria will be \$3.50 a hundred pounds, which is sixty cents higher than the express between this city and Winnipeg. The new rate from Vancouver will be \$3 a hundred pounds and will also be applicable to cherries and currants.

In addition to the freight, the berry growers also have to pay the icing charges involved in shipments to the prairies. Each car requires about five tons of ice and 1,000 pounds of salt before leaving Victoria and is re-iced en route as found necessary. Icing services to a car of 800 crates cost the growers from \$35 to \$50, depending whether the car is opened prior to arrival at its destination.

Expressage, pre-cooling, icing and other charges average about twenty cents a crate, of which the haulage charge to Winnipeg amounts to nearly sixty cents on the basis of charges of \$3.70 a hundred pounds. Fort William carlot shipments will cost more than seventy-five cents a crate on the new rate, including re-icing charges.

Emergency Outlet  
R. S. Twining, manager of the Gordon Head Fruit Growers' Association, this morning expressed appreciation of the reduction in express charges, even at the lower rates to be levied, would preclude shipping to the two cities, unless markets on the prairies become surfeited with berry supplies.

For the last two years we have shipped to the two cities, but the berries will stand the added journey, though, of course, we always take a chance in such long transportations," he said.

"Due to the reduced purchasing power of the prairies this year, the concession by the railway companies may prove to be a blessing in disguise," he said. "The British Columbia berry growers. We jointly approached the railways a month ago and were supported in our appeal by W. W. Duncan, market commissioner." Mr. Twining said.

### YOUTH DROWNED AT THE GORGE

Japanese Boy Loses Life When Canoe Overturns While Crossing Inlet

Two Companions Swim to Safety; Courageous Rescue Attempt By G. Rodd

In view of a week-end crowd enjoying the glorious weather, Tsuyoshi, Mukai, nineteen-year-old Japanese youth, 944 Belmont Road, was drowned yesterday afternoon at the Gorge when a canoe overturned. Akira and Kuwahara, his two companions, swam to shore and safety.

Courageous attempts of Gwyn Rodd, who swam to the rescue of the Japanese boy were unavailing. Mukai disappeared immediately and the body was not located until this morning.

An inquest will be held to-morrow morning at Sande Funeral Parlour. The tragedy brought to an end the happy week-end holiday of the three youths, who had been canoeing on the inlet. About 5 o'clock, according to police information, they were crossing the Gorge, from the Japanese tea gardens to Rodd's boat house, some distance above the bridge, when the frail craft, carrying the three youths, overturned. Akira and Kuwahara, his two companions, swam to shore and safety.

Sanich and Equimait police were called, and aided by the Levins brothers with their power boat and a large number of Japanese, dragged the waters until after dark yesterday evening. The search was continued at 8 o'clock this morning and at 9:15 a.m. the body of the boy was recovered. Street, and K. Takahashi, Pigard Street, brought the body to the surface.

Mukai's father, Y. Mukai, lives at 207 Gore Street, Vancouver. The youth was staying here to receive his education and would shortly have finished.

### SPENT SEVENTY YEARS OF LIFE IN PROVINCE

Mrs. Jennie Bunting, Colorful Pioneer Figure, Dies in Ninetieth Year

Days of Cariboo Gold Rush, Railway and Road Building Recalled

With little more than a week left before she would have celebrated her ninetieth birthday, Mrs. Jennie Bunting, the "belle of Yale" seventy years ago and one of the most colorful pioneers of the province, died at her home, 341 Vancouver Street, yesterday morning.

Mrs. Bunting's life was associated in several ways with the growth of the province and her marriage to the councillor of Victoria prior to the days of Confederation was described as a union of Vancouver Island and British Columbia.

Australian born, she came to British Columbia in 1860. Her father's name was MacRobert and he preceded her to this continent by eight or ten years, joining the California gold rush. As a pretty girl of nineteen summers she set out to join him in September, 1860, travelling by the sailing ship Achilles, which required two months for the voyage to San Francisco. On the way north, a ball was given at Tahiti in honor of the passengers of the Achilles, an event which was afterwards to have remarkable significance in the life of Miss MacRobert.

Before her arrival in San Francisco, her father had left for the Cariboo gold diggings and she followed him north. On the boat from the south to Victoria, she shared a cabin with Miss Joanna Tolmie, a niece of the father of British Columbia's present premier.

She found Victoria agog in the excitement of the gold rush but stayed here only long enough to arrange for her husband's return.

Mr. Bradette, "as it concerns the unemployment situation, I am entitled to an answer."

"I was just about to observe what you have said, Mr. Speaker," said Mr. Bennett. "The question is out of order."

Further attempts to speak on Mr. Bradette's part were met with a chorus of shouts of "sit down" from the Conservative side.

Mr. Bradette then moved his amendment of the House and demanded a vote. The bells rang and the formal vote was taken. When the motion was defeated.

Delegates From Pacific Coast Body Open Discussions; Welcomed By Mayor

Hear Detailed Account of Kitsilano Beach Pool; Opinion Divided on Zoos

Park commissioners of the Pacific Northwest were officially welcomed to Victoria to-day for their thirteenth annual convention and started their discussions in the Empress Hotel this morning.

Mayor Anascomb extended to the visitors the greetings of Victoria. He spoke of the value of conventions between Canadians and citizens of the United States in building up a better understanding between the two countries. He also touched upon the city's parks and wished the delegates every success in their deliberations.

Alderman John Worthington, president of the International Association of Parks Commissioners of the Pacific Coast, addressed the gathering, outlining the programme and asking the visitors to bring forward any suggestions they might have that would help the beautification of the city. He mentioned the fact that Victoria was giving Tacoma a swan and stated the delegates from that city would be allowed to make their own choice.

Before continuing with business President Worthington announced the resolutions committee as follows: A. R. Bergerson, Tacoma; Mrs. C. A. Townley, Vancouver; John Gibson, Bellingham; and J. C. Dawson, Yakima.

Details of the proposed \$40,000 pool for Kitsilano Beach in Vancouver, expected to be completed by the end of July, were outlined by A. S. Wootton, park engineer for Vancouver. Before giving specifications of the pool itself, Mr. Wootton referred to the location, saying it was in a park area and was linked up with the Indian Reserve, near False Creek. Canadian Press  
Ottawa, June 8.—W. George P. Mackenzie, former gold commissioner and chief executive officer of the Yukon and since 1925 executive in charge of the Arctic expedition and development work for the Yukon and Northwest Territories branch of the Department of the Interior retired from the civil service last Saturday, Major L. T. Burwash, investigator for the same branch and one of Canada's outstanding Arctic explorers, has been appointed to the office.

Mr. Mackenzie's retirement came as part of the cutting-down programme of the Interior Department staff.

Capt. T. W. Colley of Dallas Road, Victoria, was arrested and the Vancouver motorboat Lupine A., and its cargo of liquor, valued at more than \$20,000, were seized by Canadian customs officers in lonely Klaskimo Inlet, on the West Coast of Vancouver Island on Thursday, according to word received here this morning from Vancouver. The seized boat, its cargo, and Capt. Colley arrived in Vancouver over the week-end in charge of the customs launch Despatcher of Victoria.

Capt. Colley is well known to the shipping fraternity of Victoria, having worked in various capacities for local pilots and also having served on small boats of his own out of this port. Arrested with him on Thursday was J. Myers of Vancouver. Two men who were with them in the inlet escaped into the woods.

KEGS OF ALCOHOL  
It was reported that something suspicious was happening in the vicinity of the inlet, the Despatcher left Victoria a few days ago for the West Coast. She reached Klaskimo Inlet just as members of the crew of the seized vessel were raising to the surface kegs which had been submerged not far off the shore. From these they were filling a number of four-gallon jugs and sending them in to the shore on a small tender. On the sandy beach were more than 400 cases of bottled goods in charge of the men. The Despatcher first went up to the Lupine A. on which were Capt. Colley and Myers. The two men on the shore made their escape into the woods while the officers were speaking with the skipper of the liquor boat. The Despatcher was commanded by Capt. M. P. MacDonald of Vancouver. Capt. Colley and Myers are now in Oakalla jail awaiting word from Ottawa and further developments in the case.

It was the first seizure of liquor by the Customs Department since the wholesale liquor warehouses were closed last year.

SHIPPED TO TAHITI  
Chief Preventive Officer J. C. Barton, reporting the raid, said examination of the cache indicated that the liquor, some of which is imported, and other products of Canadian distilleries, apparently had been shipped originally to Tahiti, South Sea Islands, where big liquor depots have been established since dominion laws against private exportation of liquor and rum running were made stringent.

The Klaskimo Inlet cache, he said, would seem to have been established by a deep-sea vessel, and it is alleged, Capt. Colley and his men had been commissioned to bring the liquor to the mainland for marketing purposes.

The raid, made at night, was effected after weeks of investigation into mysterious liquor supplies which have been flooding the Vancouver and district underworld.

Capt. Colley and Myers will be arraigned before the provincial police magistrates in Vancouver.

### Commons Vote Brings No Highway Information

Canadian Press  
Ottawa, June 8.—In protest against refusal of Deputy Speaker Armand Lavigne to permit him to ask a question about the trans-Canada highway, A. A. Bradette, Liberal, Timiskaming North, Ontario, forced a vote in the Commons this afternoon.

Mr. Bradette asked Premier Bennett to confirm or deny a statement attributed to Hon. William Mackenzie, Ontario Minister of Lands and Forests, that the Dominion and Provincial Governments had reached an agreement to send out three survey parties this summer to study the best route for the proposed highway.

Mr. Lavigne ruled him out of order and said the question should be put on the order paper.

taken over in part for park purposes and afforded splendid grounds for picnics and outings. About sixty-seven acres in the vicinity formed the park, he said.

He dealt some detail with the technical details of the proposed construction, and outlined the dimensions of the tank, saying that it was being built to meet the requirements of the Olympic committee. The water, he informed the gathering, would be easily changed and would be from ten to twelve degrees above the temperature of sea water.

**BIGGEST ON PACIFIC COAST**  
In conclusion, he stated he thought it would be the biggest beach pool on the Pacific Coast.

A communication from the Aberdeen Parks Board expressed the regret of some of its members at not being able to attend the convention, but requested the meeting to draft a resolution to the Legislature of Washington requesting better conditions for parks boards of smaller cities.

The matter was referred to the resolutions committee.

At some length the delegates discussed the liability of parks boards in the case of injuries sustained on the apparatus in their playgrounds. Varying opinions were heard, but the majority expressed the view that no damages could be collected from a board if the playgrounds were properly supervised. In test cases, commissioners from the United States declared, suits against boards had been thrown out of court. No definite statement was made regarding the entire Pacific Coast delegates maintaining that different laws regarding liability existed in various states and provinces.

On the question of the value of animals in parks, opinion was divided. Dr. C. Tiffin, Woodlands Park, British Columbia, declared that the presence of the animals was of the utmost importance. He referred to the drawing card the one in Woodlands Park had been, and stated they could be made a source of revenue. If the animal cages and grounds were kept in good repair and clean, the specimens were quite happy, he said. Exception was taken to a statement by John Baxter, Victoria, secretary of the association.

Mrs. C. A. Townley, Vancouver, expressed the opinion some were of value in large cities where sufficient funds could be secured, but said that the smaller cities could not afford to keep the animals in a happy condition.

Dr. Tiffin said the best parks he kept at a very moderate cost, and urged Vancouver to improve the animal section of Stanley Park, which he described as one of the finest parks he had visited, apart from the deplorable zoo.

W. R. Reader, Calgary, backed Dr. Tiffin's remark, but the convention was divided on the issue.

Button holes of roses were given all visitors on their entry to the convention this morning.

Following an interval for lunch, the visitors were taken on a special tour of the city's parks, visiting Beacon Hill, Stadacona, Central and the George. They were also shown the city's boulevards and the various districts, and were taken through Government House grounds.

This evening they will gather at the Crystal Garden at 8:30 o'clock to see a special series of lantern slides and moving pictures on the scenic beauties of Victoria and the Island.

Those who registered for the convention this morning were: Abner P. Bergerson, F. C. Helle and Harry D. Telford, Tacoma; Mayor Anselmo, Alderman J. A. Worthington, J. Baxter, Alderman T. W. C. Hawkins, Alderman A. Peden, W. H. Warren, and T. R. Purdy, Victoria; Mr. and Mrs. W. R. Reader, Calgary; Mrs. G. A. Townley and A. G. Wootton, Vancouver; Oden Hall, Everett; Mr. and Mrs. J. C. Gawley and Mr. and Mrs. E. A. Hirsch, Yakima; W. C. Hall, J. E. Frank and Dr. C. C. Tiffin, Seattle; John Gibson, Bellingham; W. S. Thorwood, Aberdeen; and R. R. Sewell, Saanich.

**Brakeman Saves Life of Woman**

Vancouver, June 8.—Swept from the path of a Great Northern freight engine by the plucky action of a brakeman who was standing on the pilot of the locomotive, Mrs. E. Westover of Vancouver had a narrow escape from death at 9:45 this morning.

The engine, which was hunting cars at Parker Street at Glenn Drive, was approaching the crossing when the engineer noticed the woman walking on the tracks. He threw on his air brakes, but could not stop the engine in time to avoid hitting her. Only the stroke of the brakeman's arm saved her from serious injury.

She was conveyed to the General Hospital, suffering from shock and an injury to her left leg.

## CONFERENCE ON REPARATIONS IS NOW FORESEEN

International Gathering May Be Outcome of MacDonald-Bruening Conversations

British and German Leaders Promise to Co-operate With Others on Problems

London, June 8.—Possibility of a world conference to re-open completely the problem of war reparations loomed to-day in the wake of the week-end conference between the heads of the British and German governments.

London newspapers to-day linked forthcoming visits to Europe of United States Secretary of State Henry L. Stimson and Andrew W. Mellon, Secretary of the United States Treasury, with a promise made at the conference to collaborate with other governments.

A spokesman for the conversations at Chequers, country home of Premier Ramsay MacDonald, said that the world of economic and political troubles had been discussed over the week-end, particularly as affected by the Young Plan and other factors. Mr. MacDonald, Foreign Secretary Arthur Henderson and Mr. Graham, president of the Board of Trade, participated in the conversations for Great Britain, and Chancellor Heinrich Brüning and Foreign Minister Julius Curtius for Germany.

"We feel the ball has been started rolling on the whole international economic question, especially reparations," said the spokesman.

**INTERNATIONAL CO-OPERATION**  
Internationally, Great Britain and Germany cannot solve the problem, but it is important the parties to the Chequers conference went on record before the whole world in urging international co-operation and in promising each other to collaborate closely with the governments concerned.

Dr. Curtius said the delegates had discussed "thoroughly and frankly" financial and economic condition of Germany and the necessity of lightening its burden. We met with a courteous understanding," he said.

**QUESTION OF LEADERSHIP**

Chancellor Brüning was understood to have asked the British statesmen's assistance in feeling out Germany's credit ratings, particularly the United States, on the possibility of drawing reparations payments regulated by the "postponable" clauses of the Young Plan. Mr. MacDonald was said to have informed him Great Britain could not take the initiative in this respect.

**NO STATEMENT YET**

Washington, June 8.—Treasury and State Department officials had no comment to make to-day on speculation in London over the possibility of drawing reparations payments regulated by the "postponable" clauses of the Young Plan. Mr. MacDonald was said to have informed him Great Britain could not take the initiative in this respect.

**FRANCE INTERESTED**

Paris, June 8.—Any official comment on the British-German conference at Chequers over the week-end was lacking to-day.

In some well-informed quarters it was said, however, that France probably would be willing to scale down the reparations due it under the Young Plan if the other nations should do likewise. It was considered improbable, however, that France would initiate such a movement.

Le Temps, in its leading editorial to-day, said that if Germany and Great Britain, each in its own way, were to "collaborate" in the present crisis by "collaborating" with other interested governments, they can do nothing "without complete reversal of the American doctrine on debts."

It would be hazardous to predict, Le Temps said, that the visits of Secretary Stimson and Secretary Mellon to Europe would lead to any modification of the attitude of the United States.

"Therefore," the editorial concluded, "the conversations at Chequers have changed nothing to date."

**M.P. ASKS ABOUT GASOLINE SALES**

Bennett's Attention Drawn to Declaration Company Refused to Sell to Retailer

Ottawa, June 8.—A suggestion the Imperial Oil Company had refused to sell supply gasoline to the Mercury Service Limited, Ottawa, was made to-day in the Commons by C. E. Bothwell, Liberal, Swift Current, Sask.

He made a statement declaration from the president and general manager of the Mercury Service Limited, Mr. Bothwell said, stating the Imperial Oil Limited was selling gasoline at cut prices. In view of the fact that the Imperial Oil Limited is apparently taking advantage of the protection given by the government now remove the tariff then placed on gasoline?" asked Mr. Bothwell.

**BENNETT'S REPLY**

"Assertions do not constitute facts," Premier Bennett answered. "The honorable member should know, and I think he does, that this is a matter which lies entirely within the jurisdiction of the province. Whether or not any company or individual owning anything shall or shall not sell to any person who desires to buy is not a matter over which we have jurisdiction except with respect to interpretation of matters covered by the Combines Act and other legislation of that character."

"If the honorable gentleman is as desirous of ascertaining what the situation is as he apparently is of making political capital, I think there will be no difficulty."

**TOOTH SUIT FAILS**

Montreal, June 8.—The claim of Fernand Seguin against a Montreal dental office for \$200,000 damages, because of a tooth becoming lodged in his lung after a number of extractions was dismissed by Mr. Justice Surprenant in the Superior Court Saturday. The court decided the dentist had taken all possible precautions in operating and that the missing was an accident.

## OTTAWA SESSION EXPECTED TO MEIGHEN TO LAST TILL SECOND HALF OF JULY

Canadian Press  
Ottawa, June 8.—With the budget debate in full swing, and a general outline of the legislative program before it, parliament buckled down this afternoon to what may be termed the latter part of the session. Government business now has full sway, with the exception of an hour or two during each week, and the Commons is thus afforded a good opportunity for the appropriation of one-twelfth of the main estimates and one-quarter of those relating to the Department of the Interior.

The reason for the latter sum was the estimate bill, which must be met at the end of this month arising out of the retiring of many employees of the department, the Prime Minister said.

**INTERIM SUPPLY BILL BEFORE M.P.'S**

Ottawa, June 8.—Premier Bennett, as Minister of Finance, introduced an interim supply bill in the Commons this afternoon, calling for the appropriation of one-twelfth of the main estimates and one-quarter of those relating to the Department of the Interior.

The reason for the latter sum was the estimate bill, which must be met at the end of this month arising out of the retiring of many employees of the department, the Prime Minister said.

**CONFERENCE OF EMPIRE IS SET FOR NEXT YEAR**

In Commons Premier Bennett Announces Postponement of Economic Gathering

Ottawa, June 8.—The Imperial Economic Conference which was to have been held in Ottawa in August has been postponed until 1932. Premier Bennett made this official announcement in the Commons this afternoon.

He stated the Canadian Government expressed its unqualified belief in the soundness of the proposals it had made at the Imperial Conference in London last September.

In accordance with a resolution passed at the 1930 Imperial Conference, the Canadian Government proposed the holding of an economic conference in Ottawa in August, and this had been generally accepted, he said. Since then, Australia had requested that in view of the uncertain position politically in that country a postponement should be made. New Zealand had stated its Parliament would probably be in session in August and it was doubtful if a ministerial representative could be present. The Canadian Government had communicated these representations to Great Britain and the other dominions and a postponement until 1932 had been agreed on.

The statement arose from a question by Mr. Hon. W. L. Mackenzie King, Liberal leader.

Bandit Carries Away \$3,085 in Cash After Dropping About \$2,000 in His Haste

Three Robbers Last Sighted as They Drove Over Bridge Into Ottawa

Canadian Press  
Hull, Que., June 8.—A lone armed gunman held up the Champlain Street branch of the Provincial Bank here shortly after noon to-day and escaped with \$3,085. He had close to \$5,000 of the bank's funds when he fled to the street, but as he reached the door he dropped something like \$2,000 of his loot and did not pause in his flight to regain it.

The bandit fled to a car parked on St. Laurent street, two blocks from the bank, and drove west to Tule, where he was last seen going over the interprovincial bridge which spans the Ottawa River and connects Hull with the capital.

One of the most self-sacrificing men of the navy, Mr. King, held his offices in the Great War Veterans' Association and the Britannia Post, Canadian Legion, B.E.L. With the organization of the naval veterans branch, Mr. King as a naval man, transferred his membership and was a big factor in building up the organization of the naval veterans. Among his greatest interests in ex-service men's affairs was the poppy campaign through which disabled soldiers are enabled to receive the money which is in need of help. He was made chief organizer for several years of the campaign and in a great measure responsible for the importance it has attained.

Mr. King was modest about his record in the navy, but was proud of the fact that next year will mark the fiftieth year since he joined the service as a young man in England. He was on the monitors in the North Sea during the Great War, and was at one time on a war boat which came in a line of fire and was blown to pieces. Scores of lives were lost but the only thing which proved to be of any value was the story was to speak of the heroism which the sailors faced death, floating on pieces of wreckage in the cold waters with little hope of rescue. Most of them joined in the singing of popular music hall songs of the day.

Naval veterans will pay tribute to a gallant and popular friend when the funeral of the late Mr. King is held at the funeral home at 2 o'clock on Wednesday afternoon.

**EARTHQUAKES IN WEST EUROPE**

Felt in Britain, Northern France, Belgium and Southern Norway

London, June 8.—Severe earthquakes in Great Britain, France, Norway and Belgium early yesterday greatly alarmed inhabitants but did little material damage and caused no loss of life.

As many points persons jumped from their beds and rushed to the streets, half-clad. They remained outside some time, talking excitedly about the disturbances.

The tremors were felt throughout England and in part of Scotland, Wales, Channel Islands and the Isle of Wight. Northern France and southern Norway were affected, but Ireland escaped.

**RUMBLING NOISES**  
J. J. Shaw, seismologist at the West Greenwich Observatory, said—the shocks, which started about 1:25 a.m., were among the severest ever recorded in England. He reported the tremors continued strong from five to seven minutes. The phenomenon was accompanied in some regions by rumbling noises and in other places was preceded by a severe thunderstorm. An oppressive calm was noted elsewhere.

Many chimneys cracked in the ground and buildings were felt to sway. Furniture was moved in strange fashion, and crockery was thrown to the floor.

At Hull, where the ground was felt to move gently, the floors of newspaper offices in Fleet Street moved distinctly and tables shook for nearly a minute. The air was quite quiet. A watermain was broken by tremors in eastern London and cellars of buildings in the vicinity were flooded.

**THROWN OUT OF BED**  
The pier master at Southern-on-Sea, at the mouth of the Thames in Essex, reported he was awakened by being thrown from his bed. He said he rushed outside and saw the sea in an upheaval and boats bobbing about in a turmoil.

The roof of a building in Hull collapsed and the gable end of another fell out, exposing the interior. On the Island of Jersey windows were rattled, but Guernsey felt nothing.

Brussels reported the tremors had been noticed throughout Belgium and caused much excitement but no damage.

Two shocks were felt at Cherbourg at an interval of five minutes. There was no damage, however, except for cracks in houses.

The only known casualty in the British Isles is believed to have been a woman, which had a wing broken when she was sitting on a chair. The bird also was reported to be suffering from shock.

**HEAD OF NAVAL BRANCH**  
One of the most self-sacrificing men of the navy, Mr. King, held his offices in the Great War Veterans' Association and the Britannia Post, Canadian Legion, B.E.L. With the organization of the naval veterans branch, Mr. King as a naval man, transferred his membership and was a big factor in building up the organization of the naval veterans. Among his greatest interests in ex-service men's affairs was the poppy campaign through which disabled soldiers are enabled to receive the money which is in need of help. He was made chief organizer for several years of the campaign and in a great measure responsible for the importance it has attained.

Mr. King was modest about his record in the navy, but was proud of the fact that next year will mark the fiftieth year since he joined the service as a young man in England. ## JOIN ONTARIO HYDRO BOARD

Ex-Premier of Canada Becomes Member, With Hon. J. R. Cooke Named Chairman

Reported C. Alfred Maguire, Toronto Municipal Figure, Will Be Vice-chairman

Toronto, June 8.—Hon. J. R. Cooke, M.P.P. for North Hastings, will be chairman of the Hydro-Electric Power Commission of Ontario and Mr. Hon. Arthur Meighen of Toronto, former Prime Minister of Canada, will fill the vacancy on the board caused by Mr. Cooke's elevation.

Mr. Cooke, who is at present a minister without portfolio in the Ontario Government, will not resign his seat in the Legislature, but will continue as government member of the commission in the provincial House.

C. Alfred Maguire, for years a member of the Board of Control of Toronto, will, it is understood, be promoted to the vice-chairmanship of the commission.

**AFTER CRITICISM**  
The appointments are regarded in unofficial circles as a step toward strengthening public confidence in the publicly-owned enterprise, following recent criticism by opposition leaders.

In connection with the appointments, Premier G. S. Henry made a statement, in part, as follows:

"Mr. Cooke's long experience with hydro, which began some eleven years ago when he was appointed by the Legislature on the committee that studied the distribution of current to the rural parts of the province, are his eight years' service as a member of the commission under the late Sir Adam Beck, and later, C. A. Maguire, peculiarly fit him for this important post."

**CRITICISM OF MEIGHEN**  
The criticism caused by the promotion of Mr. Cooke, the government, has been able to persuade Mr. Hon. Arthur Meighen to join the board as a commissioner. We feel confident the appointment will also meet with public favor, as a man of Mr. Meighen's outstanding ability should assure the people of this province that the affairs of the Hydro-Electric Power Commission, which grows in importance year by year, are being placed in safe and sane hands."

Mr. Meighen's work as commissioner would not prevent him from continuing his other business activities, said the Premier.

**MEIGHEN WELCOMED**  
Mr. Cooke expressed gratification at the appointment of Mr. Meighen to the board. His recognized ability would be of great assistance, he said, in administering the affairs of the hydro in its future development and expansion.

Nels Nelson Asks Vancouver Magistrate to Dispose of Case Quickly as Possible

Vancouver, June 8.—Nels Nelson, captured by two employees of the Royal Bank of Canada at Forty-first Avenue and Granville Street here last Saturday morning, pleaded guilty in police court to-day to a charge of attempted robbery. He was remanded until Wednesday for sentence.

He asked Magistrate H. C. Shaw to "dispose" of him as soon as possible, frankly admitting the attempted hold-up which was ended abruptly by a flying tackle by twenty-one-year-old E. R. Lowe, judge keeper.

Before he came up for trial he told Inspector J. J. Thomson that he had intended to take only \$200 and that was for "marriage expenses." He had been engaged to a girl for some time, he said, and had been unable to get work.

Nelson, twenty-eight, was employed as a miner on the Thompson River.

The object sought by the two governments was described as the working out of a series of preferences which would develop the trade between them without injuring the domestic industries of the two countries.

Address of considerable interest were given on the subjects of unemployment, commerce and health insurance.

Prof. W. A. Carruthers of U.B.C. spoke on the topic "Curative Measures for Unemployment." He stated:

"It is good business to look after the unemployed, and it should be thought out along the lines of cost to the community and least injury to the individuals assisted." Unemployment had to be considered now as a permanent social factor; unless definite changes took place in the social structure, unemployment would continue. The problem of reserve could be handled if any means could be devised for making known the necessary reserve, he stated.

sealers which came out to Victoria and made history on this coast.

His career with the steamboat service to northern B.C. and Alaska, which he had been so closely identified with for many years, began when he joined the old Canadian Pacific Navigation Company in April, 1897.

The luv of the sealing business proved too strong and he went back for several years, returning to the Canadian Pacific coast service in November, 1897 as mate of the Charming.

He was successively commander of the Princess May, which ship he skippered for many years; the Princess Alice, Princess Charlotte, Princess McQuinn and Princess Mary, which vessel he was in charge of when he retired in 1917 at superannuation age.

Captain McLeod was in command of the Princess May when that vessel pulled up on Sentinel Island, Alaska, in 1909 and provided one of the most unusual pictures in marine history. At low tide she was completely out of the water with her bow at an angle of twenty degrees. She was resting amidships.

Captain McLeod appeared hale and hearty up to a short time ago when he returned to Victoria after spending many years with his relatives in Nova Scotia.

Captain McLeod is survived by a niece, Mrs. (Capt.) Robert Thomson of Victoria. The remains are resting at the B.C. Funeral establishment, from where the funeral will take place on Wednesday afternoon at 2 o'clock.

them from the "blind alley" job. Vocational guidance and vocational training was needed to help direct labor into the right channels. The limitation of population through immigration restrictions and birth control was advocated.

In considering the development of social work it was felt that ninety-nine per cent. of the community did not have an objective attitude towards social work. This was one reason for the slow progress made. It was pointed out that present ideals were not a new conception, but had been held by some since very early days.

There was a reluctance on the part of people to face social and economic facts. In order to do good work those engaged in social work must keep a large vision, and think not only of the daily task but in terms of the improvement of the social and economic order.

Some time was spent in considering the volunteers in social work and the different services they could render. There was also need for more unpaid professional workers.

In dealing with the unemployment of women it was felt that this should be given serious consideration by the various organizations and committees appointed to consider the best methods of handling the situation.

Addresses of considerable interest were given on the subjects of unemployment, commerce and health insurance.

Prof. W. A. Carruthers of U.B.C. spoke on the topic "Curative Measures for Unemployment." He stated:

## \$3,000,000 FIRE AT WHARVES OF NORFOLK, VA.

Buildings, Tug, Barge and Pier Destroyed Following Explosion

Associated Press  
Norfolk, Va., June 8.—Norfolk spent yesterday evening fighting a \$3,000,000 waterfront fire.

Started by an explosion in an oil barge at the Buxton Line pier, the fire rode a strong wind along 200 feet of wharves, destroyed a hotel, swept through the wholesale district and leaped across Main Street to threaten the retail business centre.

The explosion, the cause of which was sought by firemen to-day, occurred at 5:30 o'clock yesterday afternoon and it was after midnight before the combined fire-fighting forces of the entire Hampton Roads area, aided by 1,300 sailors and marines, brought the fire under control. A driving rain that began just before midnight checked the spread of the flames.

The new Victoria Hotel, a 200-room structure, was destroyed. Miss Carrie Ambrose, switchboard operator, remained at her post until all guests and employees had escaped.

The American Peanut Corporation's plant was burned down with an estimated loss of \$1,000,000. Seven city blocks were swept by the fire.

In addition to the business houses burned, the T. J. Hooper, a 200-foot tug belonging to the Eastern Transport Company, an unidentified tug and a smaller barge, with 200 feet of wharf, were damaged.

## LIQUOR CHIEF IS CRITICIZED IN ONTARIO

Canadian Press  
Toronto, June 8.—Outspoken criticism of the liquor commissioner of Ontario, Sir Henry Drayton, is contained in a report submitted to the General Assembly of the Presbyterian Church in Canada by its committee on Sabbath observance, temperance and moral reform.

Signed by Rev. Dr. W. M. Rochester of Toronto, the report states: "The Liquor Control Board of Ontario has been extolling abroad the merits of its system, and an article appearing recently in a widely circulated American magazine over the name of Sir Henry Drayton, chairman, was calculated in one of its illustrations at least to convey a too-favorable impression. A picture of one of the liquor stores appears with no one in sight except one man standing at the entrance. That picture was evidently taken at a propitious moment, for there has been a line in front of a store extending farther than a block, and it was not a single line either."

Canada was spending \$200,000,000 annually on liquor, said the report, and while other business fell off by more than 20 per cent, the liquor bill went up. "The revenue from the liquor traffic is evidently regarded as a great boon by the provincial governments," it stated.

### BODY RECOVERED

Vancouver, June 8.—The body of Jimmy Wallace, nine, 3080 Twenty-seventh Avenue, East, drowned Saturday morning when he fell off a pier at the foot of Victoria Drive while fishing in the Fraser River, was recovered at 12:40 a.m. yesterday by Constables H. Whelan and W. McNeil in the police patrol boat. The officers reported the body was found in eight feet of water about a hundred yards downstream from the point where the boy fell in.

## JUST LOOKING AROUND

By JOHN HUTCHISON, F.R.H.S.

I have been looking around my own garden this Sunday afternoon, and it struck me that the old saying about the shoemaker's children always going barefooted applied to the professional gardener, too. I saw so many things that could be improved—plants that would have been better in another position—shrubs that were too large or too small for the particular spot in which they had been planted, and a hundred and one other things that should be otherwise, including several hundred million weeds, that should be in the compost heap.

But at that, the garden was good to look at and to live in on this beautiful sunny afternoon.

I was looking over the primulas in their home under the oaks and I came across a large batch of seedlings of a certain primula of which I possess just one plant. I had collected the seed of this primula last year and had sown it carefully and not one seed germinated, much to my disgust, and here it was open to me. I had needed it myself, and there were dozens of fine, healthy little seedlings; which all goes to show that nature's way is the best. It also shows that the very tidy gardener loses a lot of self-sown seedlings by hoeing too carefully.

### A FINE POPPY

My neighbor has an Oriental poppy, the like of which I have never seen. It is a wonderful glowing crimson and the blooms are eight inches across. How he came by it he does not know, but when it has finished flowering I am to have a bit of the root, for which I am duly thankful, for I never saw a poppy that could come within a dozen miles of it for color and for size. It has a very fine, delicate, and ordinary Oriental poppy, but it has a glowing crimson plate with a black centre.

I was talking the other day with the man who sells more pansy seed than any man in the city, Mr. Steele, of Portland, Oregon. Mr. Steele has just

## SOUTH CHINA REBELS MINE SWATOW BAY

President Chiang to Lead Nanking Troops Against Insurgents

Shanghai, June 8.—While President Chiang Kai-shek, in a statement at Nanking to-day, virtually ignored the movement, leaders of the southern revolt have fortified two of their important seacoast cities against anticipated sea and air attacks by Chiang's forces.

Announcing he planned immediately to take personal charge of the government's military drive against the Reds and bandits in Kiangsi and Hunan provinces, Chiang described this as "the worst menace now threatening China."

Nanchang dispatches to-day said government troops had routed 20,000 bandits from southeast Kiangsi yesterday and captured the Communist stronghold, Puli.

The Nationalist generalissimo denied reports he planned to resign immediately as the result of attacks against his administration by the southern insurgents.

Meanwhile leaders of the Kwangtung insurrectionists rained the harbor of Swatow and the Canton River against expected government attacks. Steps also were taken to defend the two cities against anticipated air raids.

Chinese sentiment at Hongkong and at Canton is overwhelmingly against President Chiang, but there is some fear of leftist elements in the government and army, although these at present are in an ineffective minority. The Canton government is seeking by every means to raise more revenue to support Kiangsi province and the newly recruited troops it boasts, numbering about 75,000. This number is regarded as insufficient to launch an attack against Nanking, the seat of Chiang's government, and the Canton leaders are awaiting some move in this direction by Feng Yu-hsiang and Yen Hsueh-shan in the north.

**TO WIN OR DIE**  
Nanking, June 8.—Chiang Kai-shek, generalissimo of the Nationalist government, to-day ended all rumors that he was planning to retire immediately as a result of attacks against his administration by insurgents in Southern China.

In a statement to officers and men of China's Nationalist revolutionary army, the generalissimo told them their comrades, appealed for their unreserved loyalty and announced he was leaving immediately to head the government military drive in Kiangsi and Hunan provinces against Communists and bandits. This reign of lawlessness, he said, is "the worst menace now threatening China."

Chiang said he would end the brigand rule by terror in the Yangtze valley or "I shall die in the attempt."

Then referring to rumors he intended to resign he added if he was successful in crushing the lawlessness, "I will retire to my birthplace near Ningpo, thereby proving to the world and nation I have no ambition to establish a dictatorship or another dynasty as charged by my reactionary enemies."

Chiang referred only in veiled terms to the present Canton crisis, merely warning soldiers he desired them to refrain from participating in civil wars, "such as reactionary elements repeatedly seek to instigate."

The generalissimo attempted to reassure his legions concerning the government's reported intention of engaging in wholesale troop disbandment, thereby leaving thousands of soldiers without means of support. He branded those who spread reports as "lacking common sense and patriotism."

### CROWD DISPERSED

Winnipeg, June 8.—Police quickly stopped a Communist disturbance here yesterday evening before trouble had time to start. Dispersing after an orderly meeting in City Hall Square, Communists and unemployed started to bog a religious meeting nearby. Police immediately surrounded the Red jobless group, numbering about 400, and scattered the men.

## QUEBEC TOWN LOSES HEAVILY IN BIG FIRE

Thirty-two Buildings in St. Victor de Tring Destroyed; Others Damaged

Canadian Press  
St. Victor de Tring, Beauce County, Que., June 8.—Fire which swept this town Saturday completely destroyed thirty-two buildings and damaged two others. Caused by a child playing with matches in a woodshed, the blaze, fanned by a brisk west wind, quickly spread while the lad hid in some bushes for fear of punishment. He was missed only after the excitement caused by the fire had died down. Persistent questioning brought a fearful confession.

The fire is estimated to have caused damage of about \$300,000. It raged through the commercial centre of the town with little check as the townsmen had insufficient fire-fighting apparatus. Every man joined in the fight, which became particularly stubborn when the blaze reached the church. Little damage was done to that edifice, although a convent belonging to the Sisters of the Holy Names of Jesus and Mary, the local branch of the Banquet Canadiane Nationale and several stores were reduced to heaps of ruins.

## PENNSYLVANIA DISTRICTS HAVE STORM LOSSES

Pittsburgh, Pa., June 8.—Electrical storms, winds that approached tornado violence, and rains that were of cloud-burst proportions lashed Pennsylvania over the week-end, causing property damage which ran into thousands of dollars and taking at least one life.

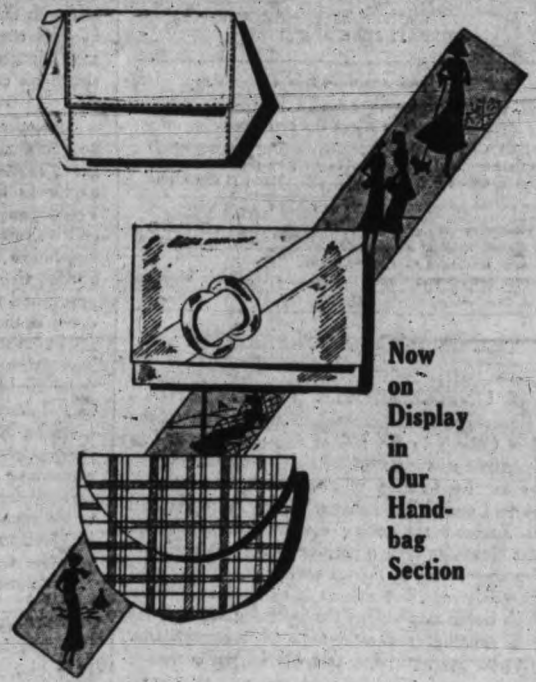

The storms apparently were the severest in the south central portion of the state. Winds in northern York County late yesterday caused \$50,000 to \$75,000 damage, demolished barns and houses, blocked roads and ruined crops.

In the southwest corner of the state, Michael Cheritto, twenty-one, a caretaker, was crushed to death when a grandstand collapsed.

In many places, particularly in the larger cities, automobiles and street car traffic was halted when rain filled the streets with water and debris several feet in depth. Pittsburgh cellars were flooded. In rural districts, trees were uprooted.

Williamport reported hallstones borne on a strong wind smashed through roofs there and heavy damage resulted. Scarcely an unbroken pane of glass was left in the town.

A Washington-New York passenger plane, which was en route to New York, was forced down at Reading, Pa., by the storm.

## Two Fliers Killed At Oakland, Cal.

Oakland, Calif., June 8.—Mitchell Misovich, thirty-one, pilot of San Leandro, and Maurice Sousa, twenty-four, Oakland automobile mechanic, were killed when their airplane plunged into nine feet of water near the Key Route Mole in San Francisco Bay here yesterday. They had gone aloft a few minutes before aboard the plane, belonging to Dr. James M. Neil, Oakland. After flying over the bay a few minutes they swooped down over the Alameda airport and waved to friends. Misovich headed the plane over the bay again and over the Mole encountered a cloud bank. Misovich, witnesses said, nosed over and attempted to turn. Joseph Cunningham, railroad traffic officer, said he saw it dive and a wing fly off.

The plane dived with the motor speeded up and struck the water.

Several boats attempted to reach the plane, but the shallowness of the water prevented them. A derrick on the dredge Duwamish pulled it from the water an hour after the crash. Both bodies were still strapped in the seats. They were crushed. The torn wing was found 100 yards away.

Without Salves or Cutting  
Itching, bleeding, protruding piles go quickly and don't come back, if you remove the cause. Bad blood circulation in the hemorrhoidal veins causes piles by making the affected parts weak, flabby, almost dead. Salves and cutting fail because only an internal medicine can actually correct these conditions. Dr. S. J. Leonhardt discovered a real internal Pile remedy. After prescribing it for 1,000 patients with success in 960 cases, he named it HEM-ROID. LAMP OF TOC H  
LIGHTED HERE

A ceremony of lighting the "Lamp of remembrance" featured the garden party given under the auspices of ToC H at the Children's Aid Home on Saturday. The affair was timed to coincide with a similar performance in London, when the Prince of Wales, ToC H patron, lighted the Victoria lamp, dedicating it to the memory of Lieut. Guyler Holland of the 52nd Battalion, Oxford and Bucks Infantry, first pilot of the Victoria branch.

Members of the branch, the ladies' auxiliary, directors of the home, C.G. I.P. groups and Boy Scouts, as well as representatives of many local organizations witnessed the ceremony here which was performed by J. B. Whitehead, one of the original ToC H members.

The garden party realized approximately \$100 for the summer camp fund of the home. It was opened by Mayor Anson, accompanied by Mrs. Anson, who were welcomed by Mrs. Radbourne, Mrs. Bissell and H. T. Ravenhill and the children of the home.

H. T. Ravenhill, acting pilot, J. Oaksmith and H. M. Field were in charge of the general arrangements for the event. The following were in charge of the various other features: Afternoon tea, ladies of the Board of the Children's Aid Home; ice cream, Hollywood C.G.I.T.; home cooking, the L.W.H. mock art gallery, Mrs. Francis Cuyler Holland; progressive games and competitions, ToC H members, including J. Comber and W. Hartley; bridge-building, ambulance and signaling displays, the Third Victoria Group of Boy Scouts.

AUTO PLANTS  
CUT OUTPUTS

Detroit, June 8.—Automobile production continues to ease almost imperceptibly. For three consecutive weeks output has shown a declining trend, the weekly recession being about 1 per cent, it was reported here.

Material releases and specifications for June delivery to the industry, however, indicate a rather pronounced recession. To this Chevrolet and, to a lesser extent Chrysler are exceptions. Other manufacturers, as a rule, are whittling down their schedules and in some cases are reducing their work week from five days to four days with no impairment in their daily rate.

Chevrolet continues to assemble five days a week, with a weekly total just under 25,000 units. It indicated May production is between 110,000 and 120,000 units. Ford, on the other hand, has tapered off gently, from about 22,000 units weekly to 21,000 still operating only three days a week. Indications of a Ford shutdown in mid-summer still are unmistakable.

Other manufacturers' weekly totals, largely unchanged, are: Willys-Overland, 3,000; Hudson Essex, 1,850; Nash, 1,000; Oakland, Pontiac, 3,300; Studebaker, 1,800; Packard, 300; Reo, 350; Graham, 1,000; Cadillac-LaSalle, 450; Duran, 300; Hupp, 500; Marmon, 150, and Lincoln, 115.

WHEAT LOADINGS  
HEAVY IN WEST

Winnipeg, June 8.—At the present rate of loading in western prairie provinces at country points on the Canadian Pacific Railway, it is evident that grain stocks throughout the west will be reduced to a very low figure by the end of the present crop year July 31, it was stated today by H. C. Taylor, superintendent of transportation for western lines.

From August 1, 1930, to May 31, 1931, Mr. Taylor explained, total grain loadings among Canadian Pacific lines have reached 139,353,000 bushels, or 53 per cent of the total marketed in western Canada.

During the last ten days car loadings of grain have been heavy, and from the period mentioned a total of 103,000 cars have been loaded, as against 57,414 for the same period a year ago, making an increase of 16,674 cars.

Stored grain at country elevators on the company's lines this year amount to \$1,377,000 bushels, and represent about 50 per cent of the total to be loaded in western Canada for the Pacific Coast and the Lake head.

Lake head storage now stands at 56,191,000 bushels, while at the port of Vancouver the figures show 12,133,000 bushels. Lake shipments from Port William are running at approximately 1,000,000 bushels per day.

ON HUNT FOR EARTH  
But now I looked wistfully down on my own back yard. It was paved with concrete. I looked into neighboring yards and saw painters and carpenters turning them into outdoor summer ten-rooms.

Well, where can you get earth in this man's town?

Earth Precious  
In Big City At  
50 Cents Bagful

New York.—Having returned from a week-end in the country where flowers were budding and trees were lush green and miles of soft grass carpeting invited a tired city fellow to relax, I turned to the wife and said: "Let's have a window box garden this year."

My wife is smarter about such matters and said: "Yes—but where are you going to get the earth?"

"You mean to tell me you can't get dirt in a town where there's more dirt than either of us ever saw before?" "Did you ever try buying any earth, dirt, or whatever you want to call it?" queried my practical better half.

Now that hadn't ever occurred to me. I remembered people telling me the earth in New York was one of the greatest luxuries. They had said that it was cheaper to buy the grown flowers than to purchase the soil in which they grew.

Soil had always seemed so valuable in years ago. Out west, I had merely to take a spade and there it was.

"So you can buy it somewhere and pay plenty—but don't ask me where?" "You started out in the big city to buy enough soil for four flower pots. Don't laugh! It isn't funny! Or is it?"

I hadn't the slightest idea how you bought earth in New York. Did you get it by the pound or the square foot, or what?

I stopped in a flower shop. "Can you spare me a little . . . eh . . . a little soil . . . you know . . . earth, dirt?" I began, somewhat subduedly.

"Now let's see," replied the shopkeeper, looking about. "I might let you have a small amount. How much did you want?"

I didn't know. I helped him hunt. Finally he reached under a table and dragged out a sack. It was just about the size of the sack you find around here."

So I went away carrying a little bag of earth under my arm and feeling somewhat silly. And wondering what would happen if I dropped it and it plopped on the street.

Since then I have made some inquiries. And I have learned that a couple of youngsters out Long Island way have made a neat bit of change by selling the soil in bags and bringing them to New York for sale. They get fifty cents for a little bucket of it. And they've quite a bit for squares of green lawn.

Anyway I've got enough earth for two little crocks, but I'm through trying to make a garden in New York. I can't afford it.

COL. E. HOBDAY  
PASSES AWAY

The death in Southsea, England, last Tuesday of Colonel Edmund Arthur Ponsonby Hobday, C.M.G., late Royal Artillery, was learned with regret by a wide circle of friends and acquaintances in Victoria, where he resided for a number of years before the war.

Colonel Hobday was born in Calcutta seventy-two years ago, the son of Lt. Col. T. P. Hobday, Bengal Staff Corps. He was educated at Wimbledon School and the Royal Military Academy, Woolwich.

In 1870 he became a Lieutenant in the Royal Field Artillery and after serving for a time in Dublin went out to India as A.D.C. to Lord Roberts, the commander-in-chief, 1880-89.

From then till 1910 he was connected with various artillery units in India, and in 1910 he came to Canada and lived on Vancouver Island. Though he retired in 1911, he rejoined in 1914 and raised the 104th Brigade, R.F.A., going to France in 1915 with the Twenty-

third Division. For his war services he received the C.M.G. and was mentioned in despatches twice.

He married the daughter of the late General B. Pottinger in 1892 and had three sons, one of whom, Captain V. M. Hobday, was killed in action in 1917. Captain R. E. Hobday, Royal Scots Fusiliers, received the D.S.O. in 1918. The third son, J. A. Hobday, lives in Vancouver.

While living in Victoria, Colonel Hobday was a member of the Union Club.

## LIONESS MISTAKES BABY FOR HER CUB

Laloch, Yugoslavia, June 8.—A tame lioness who mistook a seven-month-old baby for her cub staged the best act at the exhibition grounds here yesterday.

While the crowd looked on in horror, the beast pulled the infant from his perambulator and began to frolic with him. The mother fainting and the trainer had a few bad moments until he regained control of his charge. The baby was not hurt except for a few scratches and a bump on the forehead.

## WOMAN DIVINER TO SEEK WATER

With Willow Sprig, English-woman Will Search B.C. Districts

Government Believes She Has Gifts Not Possessed By Ordinary People

The age-old art of water divining, often doubted by the sceptical but credited with some remarkable water discoveries, is being employed by the Provincial Government this year in an effort to locate wells for the farmers of the Okanagan Valley, the Central Interior, and the Peace River district. Mrs. M. E. Penrose, an English-woman, who claims extraordinary powers, is being employed by the government to tour these districts and assist farmers in their search for water. She is in the Okanagan Valley now and will go to the country between Prince George and Prince Rupert later in the summer and then to the Peace River district.

Miss Penrose was employed in similar work in a small way last year and her success was extraordinary, according to government officials. It was for this reason that she was brought back again this season to operate over a larger territory. Her method is to walk over the ground holding a sprig of willow in her hands. The willow turns towards the ground when she stands above water, no matter how far below the surface it may lie. Apparently she has some sense not possessed by ordinary people, for, according to government officials, her findings are almost infallible.

and white. The evening was spent in games and dancing. Later, a buffet supper was served from a table beautifully decorated with roses and sweet peas. The invited guests were: Mrs. Hawkins, Mrs. Randall, Mrs. C. Griffin, Mrs. Page, Mrs. Riddle, Mrs. Landsdowne, Mrs. Carmichael, Mrs. Griffin, Mrs. Carey, Mrs. Woods and Misses B. Rogers, M. Hawkins, M. Camber, Muriel Hawkins, L. Case, Ena Griffin and F. Griffin and Messrs. Ernie Oliver, George Griffin, Fred Macdonald, Griffin, Fred Hawkins and Reg. Winterburn.

In honor of Mrs. T. M. Pottinger who has been the guest of Mr. and Mrs. R. Elliott for a few days prior to leaving for the old country, a number of friends assembled at the home of Mr. and Mrs. Elliott recently and held a surprise party. Several tables of bridge were engaged in play. The winners were as follows: First, ladies, Mrs. Champion; first, men, Mr. T. C. Ross; ladies consolation, Mrs. H. Batey; men's consolation, Mr. S. G. Gurney. Supper was served, during which Mr. Elliott, in a few well-chosen words, presented Mrs. Pottinger with an ox-eyed silver jewel case as a token of esteem and good wishes to those present. The remainder of the evening was spent in music. Among those present were: Mr. and Mrs. S. McTaggart, Mr. and Mrs. J. Ireland, Mr. and Mrs. T. C. Ross, Mr. and Mrs. Cannock, Mrs. Champion, Mr. and Mrs. J. Barker, Mr. and Mrs. G. Severns, Mr. and Mrs. S. G. Gurney, Mrs. J. M. Pottinger, Mr. and Mrs. H. Batey, Mr. and Mrs. R. Elliott, Misses Gwendie and Winnie Elliott.

Mrs. Stanley Blackburn and Mrs. Charles Barriau entertained at the home of the former, 1299 Hewlett Place, recently, with a miscellaneous shower in honor of Miss Eileen Cooney, of Toronto, whose marriage to Mr. William Dempster will take place this month. The reception rooms were artistically arranged with masses of pink pyrethrum and ferns and the many useful gifts were presented to the bride-elect in a large, decorated slipper. The evening passed pleasantly with music and games, the winner of the memory contest being Miss J. Bell Gibson. Later, a dainty supper was served by the hostesses, the table looking very attractive in a color scheme of pink and white and centered with a silver basket of pink pyrethrum.

The invited guests were: Mrs. A. Crawford, Mrs. J. Smith, Mrs. W. Dempster, Mrs. W. Gibson, Mrs. E. Semple, Mrs. E. Humphries, Mrs. J. Clarke, Mrs. V. Underwood, Mrs. Weaver, Mrs. C. Mills, Mrs. Carter, Mrs. Larnock, Mrs. J. Blackburn, Mrs. J. Dempster Jr., Mrs. J. Dempster Sr., Mrs. T. B. Dempster and Misses I. Gibson, L. Dempster, Hilda Hearn, E. Clarke, D. Clarke, Ida Gibson, Florence Watson and Margery Dempster.

The Misses Evelyn Hultford and Miss Griffin were joint hostesses recently at a miscellaneous shower held at the home of Mrs. Hawkins, 2740 Cook Street, in honor of Miss Beatrice Rogers, a June bride-elect. As the bride-to-be arrived "the room" she was presented with a bouquet of roses and orange blossoms. The gifts were contained in a basket decorated in blue.

## FLYING EYES!

A well-known aviator said: "I should say that the eyes were ninety-five per cent of a flier's equipment. They used to talk, back in the war, about the inner-drum and the effect on a flier's sense of balance, but now I think that most attention is paid to good eyesight in picking a transport pilot."

What is true of the eyes in flying is relatively true of the eyes in all sports and every vocation.

## Glorifying Yourself

By ALICE HART

Double chins often come because you just haven't been proud enough to hold your head high!

They are a terrible price to pay for lack of pride.

But, it is never too late to get a good grip on pride. All you usually need is some good reason for it. Certainly the desire to lose a double chin is adequate alibi.

The correct carriage of the head is to keep the head well up and back, never letting the neck slant forward and down. The kind of pillow you use might as well set you back some on this pride crusade. If it is a high one, discard it without a murmur and take one of the baby's for a slumber pillow. If you can do without any, it is a blessing.

In order to keep your head gracefully up and back, you must loosen the tension of those muscles at the back of your neck which not only have become taut and knotted but are also the cause of that middle age hump you see in some women across their collars.

Now, there are exercises designed especially to loosen the neck tension.

and throw your head back and up. Try the following, only don't think they will correct a lifetime of wrong posture in one week. Do them morning and night and any spare time you have during the day for one month solid and then take a good look at your neck and head.

1. Gently drop your head back until it comes as near to touching your spine as you can possibly make it. Let it hang a second, then try to get it even farther back. Kind of bounce it up and down back there a while. Then raise it, not by moving, but by elongating your neck and forcing it up. Repeat five times.

2. Next, drop your head forward as far as your double chin will let you. In fact, flatten your chin on your chest. Joggle it up and down there a bit and then stretch your neck like a string and bring your head up into place again.

3. Do the same on first your right shoulder, then your left. Then drop your head back and rotate it around, stretching your neck just as long as you can make it.

4. Lie on the floor, face down, with hands at the sides. Raise your head and chest from the floor and snap your legs up until you kick yourself. Relax. Repeat, and this time try to get your head just as far off the floor and back as you possibly can. Do this ten times.

These exercises give your spine and neck both a stretch, which both will be grateful for. They relax all your back-of-the-neck tautness. In time they will make you want to hold your head back and up, like a thoroughbred horse.

## AMERICAN WOMAN IS W.C.T.U. HEAD

Mrs. Ella A. Boole of Brooklyn Elected; Canadian Is Vice-president

Canadian Press  
Toronto, June 8.—Mrs. Ella A. Boole, Brooklyn, N.Y., was elected president of the World Women's Christian Temperance Union in convention here today. Mrs. Louis McKimney, Glasgow, Alta., was named first vice-president.

Mrs. Boole, prominent as a prohibitionist leader in United States political campaigns, is presiding over the present gathering as vice-president, in place of Anna Adams Gordon, Evanston, Ill., who has been compelled by illness to relinquish the presidency after nine years' service.

Mrs. McKimney, at present acting president of the Canadian union, has also taken a prominent part in politics. She was one of the Alberta women who appealed to the Privy Council to secure the right of their sex to sit in the Canadian Senate.

Mrs. Emmie J. Solomon, Capetown, South Africa, and Miss Maria Sandstrom, Stockholm, Sweden, were re-elected as second and third vice-presidents. Miss Agnes Slack, England, remains secretary, and Miss Margaret Munns, Evanston, Ill., honorary treasurer.

## YOUR BABY and MINE

By MRS. MILDRED ELLER

Mrs. Ellerd will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

**THIS CONSTIPATED BABY NEEDS ADDITIONS TO THE DIET**

Not all constipation can be attributed to underfeeding, but the growing baby, whose needs increase monthly and whose habits are fairly regular, will profit by some changes in the diet when constipation develops suddenly.

Mothers who have been helped at any time by advice never hesitate to come back for more, so that the development of a great many "Eldred" babies may be followed for years. Mrs. M.M.W. is one of those mothers, and this time she writes, "You helped me before when my baby was five weeks old and constipated, and we got along fine after I followed your advice. Now she will be seven months old. I do not know her exact weight, but it is about twenty pounds. She has been in good health and has one tooth. I did not even know when she cut it until I found she had it."

"So far she has never been sick, and I think it is time to feed her, but do not know what or how to feed her. Since she started teething, she has become constipated, and sometimes goes whole day without an action. I do not believe I could raise my baby without your help. Tell me now what I should do."

**GIVE ADDITIONAL FOODS NOW**

I doubt very much if teething is anything but incidental to the present constipation, the far more likely cause being just a deficient diet. This is

past the time to begin additional feeding, so you are wise to start in immediately, beginning exactly as if the baby were several months younger.

First give orange juice, one teaspoonful in several teaspoons of water, one hour before the regular nursing period. If you are using the 6-10-2-6 daytime interval, give the juice at 9 a.m., just before baby's bath.

Second is the next food in order. Thin wheat preparations made with half milk and half water are offered first. Prepare only a small amount and start with just one smooth, not too hot spoonful, with both the 10 a.m. and 6 p.m. feedings. You didn't say whether these were breast or bottle feedings.

**SMALL AMOUNTS FIRST**

If baby has had neither of the above foods, continue them for a week without making any change in amounts, then increase to double the amount first offered, and allow the baby's digestion and appetite for these foods to guide you as to future amounts.

Vegetables may be started when the baby is taking care of the orange juice and cereal without disturbance. All of these directions appear in the chart called "Feeding From Two to Twelve Months," a leaflet which will be invaluable help for you. Please don't forget to enclose that indispensable self-addressed stamped envelope with your request when you write for the leaflet.

To-morrow: Eczema is an Annoying and Persistent Ailment.

**Chapter Will Hold Dance**

Members of the J. Hadden Gillespie Chapter, I.O.E., formerly the Daisy Chain Chapter, I.O.E., are actively engaged in preparations for the annual flannel dance that will be held this year at the Royal Victoria Yacht Club on Friday, June 19. The proceeds will be devoted to the educational work of the chapter. Len Acres's orchestra has been engaged to supply the latest dance music. Conveners for the dance are as follows: Tickets and programmes, the Misses Rhoads and Zeta Clark; posters, the Misses Doris Rines and Wilma Henderson; decorations, the Misses Margaret Sheret, Patsy Rines and Eleanor Dinahale; refreshments, the Misses Elaine Gauder, Ena Henderson and Florence Whitney; music, Marguerite Rehl.

## C.G.I.T. HELD ANNUAL BANQUET

Mothers and Daughters Entertained at Emmanuel Baptist Church

The Canadian Girls in Training groups of the Emmanuel Baptist Church together with their leaders, Miss Lillian Parfitt, Miss Bertha Waites and Miss Annie Davies, entertained at their annual mother and daughter banquet Friday evening. The Sunday School room had been decorated for the occasion and the three group tables and the guest table made a very striking appearance with decorations of flowers, tall colored tapers, favors and place cards. Mrs. F. W. MacKinnon and Mrs. M. A. Richardson judged the tables and complimented the girls on the originality and artistic skill which they had displayed.

Following the banquet, the girls sang some of their favorite songs after which Miss Waites extended a welcome to "Our Mothers" and Miss Davies, to "Our Guests." Greetings from the "Victoria Leaders" and "Girls' Council" were extended by Mrs. H. Nixon, president of the Leaders' Council and Miss Mary Reynolds, president of the Girls' Council. Mrs. W. F. Freeman, director of the Baptist "Girls' Camp" at Keats Island last year, spoke on "The Value of Camp Life to the Teen-age Girl."

Miss Dorothy Smart, president of the senior group, presided over the gathering and introduced the theme for the evening, "Mothers and Daughters on the Quest of Life." Four short talks on the quest were given. Mrs. D. MacLaurin spoke on "The Quest of Beauty" and Margaret Heap on "The Quest of Knowledge." The "Quest of Service in the Home" was given by Mary Hancock and Mrs. G. H. Cogswell spoke on "The Quest of Service in the Church." The pastor, Rev. M. S. Richardson, in his inspirational address on "The Quest of Jesus," beautifully completed the theme.

The evening was fittingly brought to a close by the "Quest" ceremony in which every girl took part, the principal parts being portrayed by Jean MacLaurin, Hazel McEwan, Dorothy Smart, Winnie Waites and Irene Scoble.

The musical part of the programme consisted of a song by six C.G.I.T. girls, a vocal solo by Grace Zala and a piano solo by Elsie Cross. The C.G.I.T. pianist, Emma Gower, was the accompanist for the evening, and the Misses Marian Jamieson, Elsie and May Zala, Katy Scoble, Alice Mills, Annie Rhodes and Rosemarie Parfitt assisted in serving.

Mrs. Matthew Perry, Wilmut Place, is spending some weeks with her son, Dr. Richard Perry, Seattle.

Mr. and Mrs. L. Huber, of San Francisco, arrived in Victoria on Saturday from California and are the guests of Mrs. Huber's mother, Mrs. W. H. Cox, 81 Joseph Street.

Mrs. J. R. Angus, Earl Street, entertained at the tea hour on Friday in honor of Miss Eugenie Perry. The reception rooms were decorated with ferns, roses, stocks and antirrhinums in shades of rose and cream. The tea table, where Mrs. J. E. Lane presided, was centred with delphiniums, stocks and roses. Among those present were: Miss Perry, Mrs. Gordon Campbell, Port Alberni; Mrs. C. D. Henderson, Mrs. H. Clayton, Mrs. Edna Jamieson, Mrs. Norman Walker, Mrs. Lewis Wharton and Miss Gertrude Perry.

A delightful supper party, arranged by the second year High School pupils of St. Ann's Academy as a farewell to the Matriculation Class of 1931, was held on Saturday evening in a beautifully decorated room at St. Ann's Convent. Hand-painted place cards showed pretty school monograms; tall blue candles on the long tables alternating with blue and gold flowers, and pretty favors of tiny baskets filled with gold candies, and harmonizing with the silver flower basket resting upon a large table mirror, made the setting attractive. Each matriculant received a corsage bouquet with her place card. Among the only invited guests were: The Reverend Mother Provincial, and Sister Principal of the Academy, and the respective class teachers and music teachers of the guests and hostesses. Miss Patricia McDonald acted as toastmistress.

Switching Players Will Hurt Local Ball League

Might Turn League Into Two-team Loop

Dempsey's Reno Bout Will Hurt Schmeling-Stribling Battle

Tennis Clubs Should Do Everything to Aid Their Junior Members

THROUGH the switching of players it begins to look as if the Senior Amateur Baseball League race will develop into a two-team struggle. At the present time the Elks and Sons appear to be the class of the league, with the Tiltums a close second and the Elks the weak albatross. The switching of Jack Noble to the Elks pitching staff from the Sons strengthened the league leaders considerably in their weakest point. The Sons still have two good pitchers in Cann and Haines.

However, rumors have it that Leo Holden, star hurler of the Tiltums, will transfer from that club to the Sons. If Holden leaves the Tiltums it will weaken their line-up a lot and make the Sons just that much stronger. Holden has played a big part in the success of the Tiltums to date and without him they will not provide a great deal of opposition for the two top teams—the Elks and Sons.

This switching of players is O.K. for the team that benefits, but it is hard on the club that loses the players. The team should bear in mind that the fans, who support the league, do not want to see a two-team club. They would rather witness a close race between all four teams. A runaway affair is not very exciting. And, after all, the league exists to help the boys in which to score a knockout.

Jack Dempsey's Max Baer-Paulino Uzcudun fight, being staged in Reno, will certainly do the league some good. Reno is an attractive place for a sporting visit, with wide-open gambling and other entertainments. Uzcudun is a rough, rugged fighter. Baer realizes that he has to make good on this fight or go out of the limelight. Twenty-one of the boys in which to score a knockout.

Dempsey is planning a heavy-weight championship fight in Reno if this bout proves a success. Dempsey, always a ring idol, will no doubt attract a large number of fans just the way he has drawn the fans to bouts in which he has been the referee.

Young Corbett, the boxer who trounced Jackie Fields and Young Jack Thompson, didn't get their wolverine's teeth, made money in his first amateur fight than he did in his first professional fight. The fans were so pleased with his amateur performance that they showered him with coins to the tune of \$150. If he didn't pick them up, someone else would, so he gathered them up. He got 25 cents for his first professional fight. Hard to get money, but that's the way it is. Although Willard got less than that for winning the world heavy-weight championship, his managers told him he owed them \$100 for his share of the loss on the fight, and later took out of his circus earnings.

Helen Wills proved that she has not lost her winning game when she defeated Phil Nier, former U.S. inter-collegiate champion and provincial tennis contender, in a recent exhibition, 7-5. That recalls the time she beats Fritz Mercer in an exhibition at Forest Hills, and Mercer in the same season beat Bill Tilden. However, critics noted that Mercer kept away from the net in his match with Helen, which was a gentlemanly thing to do, although it weakened his play. In a subsequent private match he evened the score, playing his normal game.

Writing in the May issue of Canadian Lawn Tennis and Badminton, G. S. Blann has brought out a very good point in regard to the junior members of tennis club. The article follows: "By this time, annual meetings of most tennis clubs have been held and officers and committees are all planning for a banner year. The early spring has given a great opportunity to the groundsmen to get the grass in splendid playing condition weeks in advance of previous springs. Calendars have been consulted and applications for the provincial tennis associations for sanctions of the proposed tournament dates.

"Final Everything looks rosy. Let's go!" "Just a minute though! Didn't your club, and other clubs, plan things as above last year, the year before, and in fact as far back as you can remember?" "Certainly! But what is wrong with that?"

"Nothing is wrong in so far as these plans go. But in ninety at least of every 100 active tennis clubs in Canada you have not planned, plotted, prepared or practiced the biggest asset each club has—your juniors."

"Now, Mr. President or Mr. Executive, or plain Mr. Member, do not they have more than on the courts now than they should."

"Go on! I can add several dozen more objections that I have heard during the last twenty years or so to juniors that you are offering, but all of them add up to one thing, and that is, the juniors are not being properly taken care of, or the biggest asset that we in Canada can have in our tennis clubs."

"Those clubs which have the benefit of professional instruction should show the way by doing better. They are not in position to provide the facilities of professional coaching. What plan

## Former Is Victor Over Brynjolfsson In See-saw Battle

Scores 1 Up Victory Over Winner of B.C. Amateur Crown in Final of Uplands Club Play; Marling Captures Colwood Club Honors By Decisive 10 and 9 Victory Over Percy Edmonds; Both Finals Over Thirty-six Holes.

Sandy Marling, son of Alex. Marling, club professional, captured the club championship of the Colwood Golf Club yesterday when he defeated the veteran, Percy Edmonds, by the overwhelming score of 10 and 9 in the thirty-six-hole final. Marling, who has come ahead in leaps and bounds in recent months, played sterling golf, and always looked like a winner. Marling negotiated the morning eighteen in 70 and enjoyed a lead of four holes. For the afternoon nine the champion clicked off a neat 35. Edmonds needed 83 strokes for the first round and 41 for the afternoon nine. Edmonds started off in fine style by capturing the first hole with a four to Marling's five, but the new champion soon got down to business and captured the next four holes. At the end of the first nine holes Marling was four holes in the lead, and on the four holes in the lead, and on the incoming nine retained his advantage. Edmonds was unfortunate at the eighteenth when he was just off the edge of the green in two, and his opponent had already played four, to have his ball come to rest against a twig which could not be removed without moving the ball. He was only able to halve the hole in five.

MARLING TOO GOOD In the afternoon Edmonds had no chance to square the match, Marling playing perfect golf, with the exception of his tee shot on the twenty-second, which finished in a bunker. However, he pitched out and holed a five-putter for a three to halve the hole. A three on the twenty-fourth and a two on the twenty-fifth made Marling nine up. He halved the eighth and won the ninth to finish the match, 10 and 9.

Their cards follow: MORNING ROUND Marling.....54-35-44-44-38 Out.....54-35-44-44-38-76 Edmonds.....55-36-45-45-41 Out.....55-36-45-45-41-82 (Four up)

JOLLY HAS WITHDRAWN FROM TEAM Famous British Pro Resigns From Ryder Cup Golf Team; Poor Form Is Cause

Replaced By Arthur Havers; Team Sails For Matches in United States June 10

London, June 8.—Herbert Jolly, Fox Grove professional, has been withdrawn from the British Ryder Cup squad because of the poor form he has shown recently. His resignation was accepted at a special meeting of the professional golf association Saturday. Arthur Havers, former British open champion, who did well in the open play, won by Tommy Armour at Carnoustie will replace Jolly on the team.

Jolly said he considered the winning of the Ryder Cup by the British team should be placed above personal feeling. "I would love to make the trip to America," he said, "and it is well possible that I will play in the United States open and the Canadian championships, but I am disappointed with my present form and feel that inclusion on the Ryder Cup squad is not justified."

The team will sail for New York June 10 and is now composed of Charles and Ernest Whitcombe, Archie Coleson, Sid Easterbrook, Arthur Havers, George Duncan, W. H. Davies, Bert Hodson, Abe Mitchell and Fred Robson. They carry through for the juniors should be given to their provincial officers, so that other clubs could avail themselves of this data. WESTS SUFFER 9 TO 3 DEFEAT Victoria Football Team Swamped By Royals; Nainimo Beats Kerrisdale

Vancouver, June 8.—Victoria West had a horrible time of it Saturday afternoon at Con Jones Park. The Victorians met New Westminster Royals in the first round of the Connaught Cup soccer competition, and that was all of the competition that the Wests will see this year. Jack Coulter scored seven goals as the Royals trounced the Islanders 9 to 3.

The game was but five minutes old when Coulter got his first goal of the match. He shot into the goal from a free kick and Jack shot it into the net with a nice low drive. Soon after Coulter grabbed off two more goals. Fifteen minutes later Coulter passed from Kukul, to put on his second effort of the day. A minute later d'Easum was left unmarked and Coulter took Jack's centre and crashed it into the net.

SCORES HIS FOURTH Soon after this Turner nodded a pass to Coulter and the Royals' centre put on his fourth goal. Shanks handled just after the kickoff and Coulter made it 5 to 0 by scoring the penalty. Robinson put Victoria into the scoring column, but just before half time Kukul put on another goal for Royals to make it 6 to 1 at the interval.

Coulter kicked d'Easum's corner kick past Restall in the first minute of the second half to make it 7 to 1, and a few minutes later Turner and Coulter combined. The new game is very popular in Australia and should be well here. The teams are made up of seven men to a side and the defence system closely resembles that of hockey, although not so fast.

A NEW LACROSSE Lacrosse, Canada's national sport, has been off the front page for some years. Efforts to bring the game back to its former prominence have resulted in the proposed introduction of a new game, called box-hockey. The game is to be played in a four-team league, including New York, two in Montreal and one in Toronto. In Toronto the game is being sponsored by Peter G. Campbell, former University of Toronto athlete. The new game is very popular in Australia and should be well here. The teams are made up of seven men to a side and the defence system closely resembles that of hockey, although not so fast.

Mrs. Hutchings Is Club Champ Vancouver, June 8.—Mrs. Vera Hutchings, one of Canada's greatest women golfers, revealed all of her brilliant Sunday afternoon to triumph in the final for the Ladies' Amateur title. Mrs. Hutchings won 7 and 6, finishing the match on the twelfth green. The champion was out in thirty-nine strokes.

A. Geddes And F. Smith Tie In Macaulay Event In the men's monthly medal competition staged at the Macaulay Golf Club yesterday, A. Geddes and F. Smith tied for first place, each with a net score of 64. Geddes had a gross 77 and a handicap of thirteen, and Smith a gross 82 and a handicap of sixteen.

McGrory, Centre-forward, Suffers Broken Jaw; Celtic Beaten By Pawtucket

Canadian Press Ebbets Field, Brooklyn, N.Y., June 8.—The famous Glasgow Celtic soccer team played in their real form yesterday to score a smashing 5-to-0 victory over Brooklyn Wanderers before 10,000 people in the sixth game of their tour of the United States which, to date, shows three defeats and the same number of wins.

The victory was costly to the Scottish champions, for midway in the second half their brilliant international centre forward, Jimmy McGrory, was forced out of the game with a badly fractured jaw after colliding with a Brooklyn goalkeeper, Pentland. McGrory, who had headed the ball and brought his jaw, with a crash, against the goalkeeper's head.

For the rest of the game the Celtic played with ten men but did as they pleased against the American League team, which was led by Willie Crilly. After playing at Montreal next Saturday, Celtic return to New York to face the Hakoah All Stars at the Polo Grounds the next day.

The teams follow: Glasgow Celtics—J. Thomson, goal; Whitelaw, McGonigle, backs; Wilson, McEwen, Scarriff, half backs; R. Thomson, A. Thomson, McGrory, Napier and Hughes, forwards.

Brooklyn Wanderers—Pentland, goal; Cross, Wood, backs; Wardrop, McGuire, Schieder, half backs; Brown, Ballantyne, Crilly, Lyle and Eisenhofer, forwards.

## Tilden Wins Over Kozeluh in Their First Turf Match

Rye, N.Y., June 8.—In their first meeting on turf courts, Big Bill Tilden defeated Karel Kozeluh, Czechoslovakian professional, 6-3, 7-5, in a charity exhibition at the Westchester Country Club yesterday.

Ernest Pars defeated Frank Hunter, 4-6, 6-3, 4-6, Hunter and Tilden beat Kozeluh and Robert Sellers, 6-2, 2-6, 4-6, in doubles.

CARNERA WILL MEET REDMOND Giant Italian Battles "Minor League" Heavyweight at Brooklyn Wednesday

New York, June 8.—That famous "minor league" heavyweight, Pat Carnera, tangles with Primo Carnera at Ebbets Field, Brooklyn, Wednesday night in what promises to be the most entertaining of the nation's fistie offerings this week.

Redmond is the emergency opponent Jimmy Johnson secured to meet Carnera when the big Italian was restrained by federal injunction from fighting Jack Sharkey or any other major opponent. In point of size, Redmond, who has done all of his fighting around here in the small clubs, is a close match for the big Italian.

The Irishman stands six feet four and weighs around 280 pounds. The only activity in Madison Square Garden from a boxing standpoint will take place to-night when the third of the so-called new talent shows is put on.

OTHER BOUTS Boston, New Haven, Cleveland and Hollywood, Calif., have the best offerings among other fistie centres. At Braves Field, Boston, to-night, Babe Hunt, veteran Ponca City, Okla., heavy weight, tackles Paul Swiderski, hard-hitting boy from Syracuse. At Hollywood on Friday, Freddie Dado, Los Angeles featherweight, meets Roy Montoya, San Diego.

New Haven's Wednesday feature is Kid Choccolate, Culter featherweight, in a ten-round bout with Steve Smith of Bridgeport, Conn. These boys have met twice before and Chocolate has edged off with the decision each time.

At Cleveland, on Wednesday, Billy Wallace, Cleveland, lightweight, encounters the Philippine slugger, Lope Tenorio.

Portland, Ore., June 8.—Frank Dolp, Alderwood Country Club, successfully defended his Oregon State golf crown by defeating Rutie Wilhelm, 9 and 2, in the final round of the annual championship on Saturday. The victory gave Dolp his second successive state championship. Wilhelm has held the title seven different times.

Dolp came in to lunch at noon with only a one-hole lead, but he opened the afternoon round with a flock of birds and par that soon convinced the large gallery he would retain his title.

Two birdies on the thirty-first and thirty-third definitely ended the match.

Mrs. Kenneth Reed, Waverly Club, won the state women's golf championship from Miss Charles Egner, Columbia Club, 11 and 10.

A. Geddes And F. Smith Tie In Macaulay Event In the men's monthly medal competition staged at the Macaulay Golf Club yesterday, A. Geddes and F. Smith tied for first place, each with a net score of 64. Geddes had a gross 77 and a handicap of thirteen, and Smith a gross 82 and a handicap of sixteen.

McGrory, Centre-forward, Suffers Broken Jaw; Celtic Beaten By Pawtucket

Canadian Press Ebbets Field, Brooklyn, N.Y., June 8.—The famous Glasgow Celtic soccer team played in their real form yesterday to score a smashing 5-to-0 victory over Brooklyn Wanderers before 10,000 people in the sixth game of their tour of the United States which, to date, shows three defeats and the same number of wins.

Canadian Press Ebbets Field, Brooklyn, N.Y., June 8.—The famous Glasgow Celtic soccer team played in their real form yesterday to score a smashing 5-to-0 victory over Brooklyn Wanderers before 10,000 people in the sixth game of their tour of the United States which, to date, shows three defeats and the same number of wins.

The victory was costly to the Scottish champions, for midway in the second half their brilliant international centre forward, Jimmy McGrory, was forced out of the game with a badly fractured jaw after colliding with a Brooklyn goalkeeper, Pentland. McGrory, who had headed the ball and brought his jaw, with a crash, against the goalkeeper's head.

For the rest of the game the Celtic played with ten men but did as they pleased against the American League team, which was led by Willie Crilly. After playing at Montreal next Saturday, Celtic return to New York to face the Hakoah All Stars at the Polo Grounds the next day.

## Up-Island Players Score 10-to-5 Victory Over Local Club To Go in Tie For League Leadership With Victoria Club Players; Corfield and Loney Triumph Over Jones and Schwengers; Tommy Forbes in Double Singles Victory; St. Paul's, J.B.A.A., C.P.R., Victoria "B" Men and Duncan Women Other Winners.

Winning eight of the twelve singles matches and two of the three doubles, Duncan Lawn Tennis Club's entry in the First Division of the Vancouver Island Tennis League defeated the Kingston Street team 10 to 5 on the Up-Island courts yesterday. The win places Duncan on even terms with the Victoria Lawn Tennis Club, each having a win to their credit over the local clay court players.

In the other matches over the weekend, St. Paul's defeated C.P.R. 6 to 2, J.B.A.A. defeated Hillcrest 7 to 1, Duncan "B" women won over Kingston Street 7 to 2, C.P.R. No. 2 defeated Langford 6 to 2 and Victoria "B" men defeated Duncan 10 to 2.

# Chicago Cubs Hit Giants In National League Race

## Rogers Hornsby and Wilson Hit Homers To Defeat New York

After Floundering Around in Early Part of Season Cubs Fight Way Back Into Second Place By 8-to-3 Victory Over Giants; St. Louis Split Games With Brooklyn and Remain Four Games Ahead; Philadelphia, Washington and New York Yankees Win.

Chicago's Cubs finally appear to have hit their stride. They floundered badly during the middle of May, losing eight games out of ten in one group. In the last two weeks they have turned out hot, winning twelve of their last fifteen games and climbing to second place. In this streak they have been hitting hard and some fine mound work by Bob Smith, who has won four consecutive games, and Lester Sweetland has helped considerably.

They passed the New York Giants yesterday with an 8-to-3 victory in a game that was stopped by rain in the sixth inning. Rogers Hornsby and Hack Wilson hit home runs.

## CRUSE WINNER OVER SIEMANS

Portland Wrestler Ends Match in Third Round By Hurling Opponent Through Ropes

After he had hurled Ivan Siemans, Seattle heavyweight, through the ropes in the third round to obtain the tying fall, Bob Kruse, Portland, had no trouble pinning his opponent for the winning fall in the first minute of the fourth. Siemans was still groggy when the fourth opened, and it was just a matter of Kruse dropping on him for the third fall. In the five-round semi-final Ray Frisbie, Medford, won over Jack O'Dell, Salt Lake City, getting the first fall in the fourth round with an airplane spin, and then being awarded the bout when O'Dell was unable to answer the bell for the fifth.

After an even first round in the main event, Siemans gained the opening fall in the second, when he pinned Kruse with a double wristlock and a press. Siemans had weakened the wrestler with a punishing hammer and several toeholds.

## Watching the Majors

Bob Ruth rang up the only gain yesterday in batting averages of the Big Six batsmen who lead the major leagues. The Babe made two hits in four times at bat and added three points to his mark, bringing it up to .411. Hendrick hit three times, but made nine trips to the plate and lost four points. Coss hit in three times up coast, Charlie Grimm a point, while Oscar Melillo failed four times to connect and lost ten. Arlett and Cochran were idle.

The standing:

Player	AB	R	H	PA	AVG
Babe Ruth	121	22	50	121	.411

## MANITOBBANS BEATEN 2-0 BY TOURISTS

English Football Stars Experience Keenest Opposition in Match Saturday

Hine and Cookson Score Goals; Old Country Team Opposes Regina To-morrow

Winnipeg, June 8.—England's touring soccer squad sped onward into the west yesterday with the fifth successive win of their cross-Canada tour in their pockets, leaving an all-star Manitoba eleven as their latest victims.

The Manitoba team offered the most severe opposition the invaders have encountered in their undefeated westward sortie, losing only by 2 to 0.

Once in each half the smooth-ensemble of the English crew foiled the Manitoba defense, who played a spectacular game in the Manitoba nets. Flashy displays from the tourists were hampered somewhat by a deceiving wind bearing across the playing pitch.

The first of the two goals was gained on a penalty kick.

HINE SCORES PENALTY

Hine, deceptive inside left, catapulted England into the lead twenty-five minutes after the start when the initial penalty was awarded.

Five minutes later Hine again booted a sizer from the spot, but on this occasion Ritchie was not to be beaten.

Twenty minutes after the interval, the second tally came from the boot of Cookson, aggressive English centre-forward. He rifled the ball into the net from three yards out, leaving the goal not a chance. Only Ritchie's deft defensive work held down the English when they rose to peak-form in the second half.

The tourists met Regina on Tuesday in their trek to the coast.

The teams follow:

England-Hibbs, goal; Shaw, Rough-ton, backs; McKee, O'Dowd, Campbell, halfbacks; Alexander, Smith, Cookson, Hine and Barry, forwards.

Manitoba-Ritchie, goal; D. King, A. King, backs; McKay, Kulak, Monson, halfbacks; Gibson, Morrison, Johnson, Lang and Landis, forwards.

Referee-Dave Ross, Winnipeg.

## All-star Soccer Teams Will Play Match To-morrow

The two all-star football teams picked to play in a number of trial matches, before the selection of the local team to play the touring English team is made, will meet in a match at the Heywood Avenue grounds.

Beacon Hill, to-morrow evening at 8:15 o'clock. The teams follow:

Number One—DeCosta, Joe Crowe, Gibbons, Vigness, Boyd, McKay, Taylor, J. Stewart, Burns, Robinson and Mulcahy.

## Winners of Local Golf Titles

SANDY MARLING

Two local youngsters who captured the championships at The Uplands and Colwood golf clubs yesterday. Marling defeated his old rival Harold Brynjolsson one up in thirty-six holes, while Marling was retained victor over Percy Edmonds ten and nine over the same route. Both are first-class golfers, Marling, having occupied the spotlight in local golf for some time, while Marling has rushed to the front in recent months.

## OUR MAIL BAG

PICKS "REP" SOCCER TEAM

To the Sports Editor:—May I, through your paper, make a few remarks about the all-star team to play against the touring English eleven?

I quite agree with F. P. Kingswood, who said that a team should be picked on the season's play and not by trial games.

My choice of a team follows: Goal, D. Coster; fullbacks, Joe Crowe, Talbot and Leggett; Jokers; halfbacks, Boyd, Equimait, Campbell, Jokers, and Smith; City; forwards, Young, West, S. Stewart, Equimait, Peers, West, Wagland, Equimait, and Mulcahy, West.

How about a few suggestions from their fans? Don't you, too, agree with Mr. Kingswood?

F. H. TOMS

## Pigeon Racing

The Victoria and District Racing Pigeon Club held a race from Chu Chu, a distance of 550 miles, yesterday. The birds were liberated at 7 a.m. in heavy mist and cloudy skies. Two hundred birds took part.

## INCOS DEFEAT C'S; VICTORIA WANDERERS WIN

Reg. Wenman Stars as Team Overcomes Churchmen in Only League Match

Leading the batters with a total of forty-five runs and taking five wickets for twenty-nine runs, Reg Wenman, for many years one of the most outstanding members of the British Columbia "rep" team, starred in the victory of the Incos over the Five C's in the cricket match at Beacon Hill on Saturday. The Incos won with a total of 103 for seven wickets.

Allen was second highest batter with forty-one, while for the churchmen, Percy Payne and H. Edwards were the chief scorers, gaining thirty-two and twenty-two runs respectively.

In two friendly matches, Victoria University School and Saanich lost in friendly cricket fixtures.

GOOD BATTING

The batting of Barber-Starkey and Saxton-White for Victoria against the University School at Mount Tolmie figured largely in the team's victory over the students. The former scored forty runs with the latter contributing thirty-one. Hamber knocked out twenty-six for the University boys.

The final score read 171 to seventy-four.

In the other encounter, bowlers of Saanich and the Wanderers kept the rival batsmen down to low scores in a two-inning battle at Work Point. The Wanderers had a total of forty-one to Saanich's thirty-five in the first inning, while in the second, they rolled up thirty-eight for four wickets against the suburban team's sixty.

Austin of Saanich and Lethaby of the Wanderers were high batters. Scores follow:

## CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator," was the subject of the lesson-lesson in all Christian Science churches and societies on Sunday.

One of the scriptural texts contained in the lesson-lesson was: "But as it is written, eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him" (I Corinthians 2:9).

Following the reading of the Bible

texts, passages were also read from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being the following from page 364: "As mortals gain more correct views of God and man, multitudinous in the lesson-lesson, which before were invisible will become visible. When we realize that Life is Spirit, never in nor of matter, this understanding will expand into self-completeness, finding all in God, good, and needing no other consciousness."

CATALYST AGE  
COMING NEXT

Future Wizards Will Smile at  
Wonders of Modern  
Machine Age

By DAVID DIETZ

The next age may be the Age of Catalysts. Many scientists think that the day will come when we will look back upon the Machine Age with smiles. We are proud to-day of our huge factories with their tall chimneys belching smoke into the sky. No doubt the mighty dinosaur, floundering around in the swamps of the Age of Reptiles, was proud of his ugly bulk. Tiny mammals, so small that he could crush one beneath his ponderous foot, must have excited his mirth. But the day came when the dinosaur disappeared from the face of the earth and the tiny mammal took his place.

The chemist knows that our boasted efficiency is an inefficiency of the rank sort. We are efficient up to the extent of our knowledge, but our ignorance is still abysmal.

The point I wish to make is that scientists and engineers look forward to advances of such magnitude that they will revolutionize present industrial methods.

THE GREEN PLANT  
The scientist looks to catalysts to bring about the revolution. The catalyst has been defined as a substance. In some way, it promotes or starts up chemical reactions which otherwise cannot be carried on without the expenditure of tremendous amounts of energy, usually in the form of heat.

Nature still knows more about catalysts than does man. A blackberry bush, growing on a hillside, is a smarter chemist than any mankind has yet produced.

The bush, or any other green plant, absorbs the carbon dioxide of the air and the water of the soil and with the aid of sunlight puts them together into the sugars and starches which are within its cells. The energy for this chemical reaction is the energy of sunlight. But the reaction is possible only in the presence of a green coloring matter in the plant's cells. This green stuff, known as chlorophyll, is a catalyst.

Sunlight is continuously falling upon the earth's surface and largely going to waste. In one second, the amount of energy which falls upon a square yard of the earth's surface is the equivalent of two-thirds of a horsepower.

Some day chemists hope to put that wasted energy to work.

CATALYSTS WORK  
When the chemist looks to the future use of catalysts he is not indulging in a dream. Many chemical processes now employ catalysts. These have simplified old manufacturing processes and in many cases made possible processes which were previously impossible.

The manufacture of sulphuric acid makes use of platinum as a catalyst. The reaction by which sulphur dioxide is changed to sulphur trioxide acid is a difficult reaction to carry on. But it is easily carried out in the presence of platinum.

Catalysts also play an important role in the hydrogenation of fats. Oils can be made into fats by the addition of hydrogen. But under normal conditions oils will not react with hydrogen.

Nickel, however, is the catalyst in this case. In the presence of nickel the oils and hydrogen react to form solid fats.

Other processes in which catalysts are used include the manufacture of ammonia, synthetic wood alcohol and acetic acid.

Salt Spring  
A very enjoyable garden and tennis party was held at the home of Mr. and Mrs. Desmond Crofton of Ganges Harbor recently, in honor of their cousin, Mrs. A. G. Buchanan.

The party was in the nature of a farewell to Mrs. Buchanan, who has spent the last year on Salt Spring, and among those gathered to wish her Godspeed were Mr. and Mrs. E. A. Crofton, Mrs. Fred Crofton, Capt. and Mrs. J. Mitchell, Mrs. Charles Macintosh, Mr. and Mrs. F. L. Scott, Mrs. A. J. Smith, Mrs. F. Speed, Mrs. Cecil Springford, Mrs. Thuyler, Misses Diana and Doreen Crofton, Messrs. H. W. Bullock, Dermot Crofton, Capt. F. H. Walter and others.

Miss Gladys Borradaile of Ganges was a visitor in Victoria on Thursday. Mrs. P. L. Crofton of Ganges, accompanied by her son, Francis, had returned home from a visit to Shawnigan Lake.

J. Watson, "Woodhill," Ganges, was a visitor in Victoria on Tuesday. Mrs. George Stewart of Beaver Point returned home on Monday evening after a short visit in Victoria.

Mr. A. G. Crofton of Ganges has returned home after spending several days in Vancouver, where he represented the Salt Spring branch at the recent Canadian Legion convention at New Westminster.

Mrs. Curtis Sampson of Victoria is spending a few days on the island, the guest of Mr. and Mrs. F. L. Scott at Ganges Harbor.

Mr. and Mrs. G. Layard and small son have returned to their home at Deep Cove, after spending a few days on their property, "Riversdale," Vesuvius Bay.

Mrs. A. G. Buchanan and her small daughter have left for Vancouver, en route to London, Eng. Mrs. Buchanan has spent the last year on Salt Spring Island with her parents, Capt. and Mrs. F. H. Walter.

Messrs. W. Hicks and J. Hall, who have been visiting Vesuvius Bay, have returned to Victoria.

Miss May Cartwright of the staff of the Royal Jubilee Hospital is the guest of her aunt, Miss L. Royal, at Ganges.

Mr. and Mrs. J. Aitken, who recently returned from a trip to England, are spending a few days with Mr. Aitken's sister and brother-in-law, Capt. and Mrs. James Mitchell at Ganges Harbor.

The Ganges Chapter, I.O.D.E., held their last monthly meeting of the season at the home of Mrs. F. L. Crofton on Ganges Hill, on Wednesday afternoon. The Regent, Mrs. W. E. Scott, was welcomed back after her recent illness. Plans were made for the unveiling of the tablet erected at Ganges Harbor in memory of the old ship, H.M.S. Ganges, which is to be visionally arranged for June 17.

The committee in charge of the arrangements and for the lunch which will follow are: Messrs. W. E. Scott, F. L. Crofton, H. Johnson, Moorhouse, F. Speed, W. Tague, G. H. Young, C. E. Beddie, J. Taylor and Miss Royal.

W. E. Scott of Ganges has recovered from his recent operation at the Duncan Hospital sufficiently to be able to return home.

In computing the number of words in an advertisement, estimate groups of three or figures as one word. Dollar marks and all abbreviations count as one word.

In estimating the number of lines in an advertisement, count five words for the first line and seven words for each line thereafter. This is not an absolute guide to the number of lines, which depends on the length of the individual words.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one insertion. Any claim for rebate on account of error or omission must be made within thirty days from the date of the same, otherwise no claim will be allowed.

Advertisers who desire it may have copies addressed to a box at the Times Office forwarded to their private address. A charge of 10c is made for this service.

Subscribers wishing their address changed should notify this office as well as the carrier. If your Times is missing, phone E4175 before 9 p.m. and a copy will be sent by special messenger.

## COMMON IDEALS

Montreal, June 8.—Canada's people are multilingual, of diverse origins, but their descendants are of one race, with common ideals. A. A. Heaps of Winnipeg, Labor member of the Commons, said yesterday in an Italian labor club meeting here, commemorating the death of Giacomo Matteotti, who was assassinated in Italy early in the Fascist regime. He claimed Canada was not yet up to standard in supporting the labor cause. Of the members in the Federal Parliament only three were labor men.

**PROTEIN IS THE CAUSE OF** SENSITIVITY TO FOODS

**By DR. MORRIS FISHEIN**

For years it has been known that people could be sensitive to foods. Recently medicine has been paying more attention to the subject and now has various theories as to why such sensitivities occur.

The particular element in foods which causes sensitivity is the protein. It is understood that the main elements of foods are proteins, carbohydrates, fats and mineral salts.

The views are that the absorption of foods occurs so quickly that the proteins get into the blood without having time to be changed chemically as in the normal person, that the digestive juices are changed in some manner so that they are not able to transform the protein into the normal person, that the person contains in his body certain substances which interfere with transformations of proteins, or else that the person contains in his blood some substance which, combining with the protein, sets up the condition of sensitivity.

There are all sorts of symptoms of sensitivity, some of the most common manifestations being a sick headache, abdominal pain, vomiting, diarrhoea, and also such eruptions as hives, eczema, inflammation of the bronchial tubes, asthma, cancer sores in the mouth, and other disturbances. These conditions are not of course, in any way related to food poisoning, which is due to infection of food by germs or by poisonous substances.

Among the first substances to which some people were found to be especially sensitive was egg. To-day it has been shown that practically all foods except water and sugar, may in some individuals produce the symptoms of food sensitivity. Wheat products, chocolate, potato and fish have been especially recognized. Some babies are sensitive to milk. Other things which have been particularly

ADVERTISE IN THE TIMES

## OBITUARY

The death occurred yesterday at his residence, 408 Edward Street, Victoria, of William Beattie, aged seventy-six years, a native of Kingston, Ont., and a resident of Victoria for twenty-five years. Mr. Beattie is survived by his widow; three daughters, Mrs. W. B. Hill, Vancouver, Margaret Beattie and Mildred of Victoria; three brothers and four sisters, Luke Beattie of Ridgeway, Ont., Samuel H. Beattie of Tucson, Arizona, U.S.A., and Wesley of Olanowque, Ont.; Mrs. Annie Keating of Lansdown, Ont.; Mrs. D. Root of Biggar, Sask.; and Sarah and Minnie of Victoria. The remains are resting at the Thomson & Petherly Funeral Home, and will be removed to the Victoria West United Church on Tuesday at 1.45. Service will be held at 2.30. Rev. O. M. Sanford will officiate. The body will be taken to Vancouver on the night boat for interment in the Fraser Cemetery, New Westminster. It is requested that no flowers be sent. The late Mr. Beattie was a prominent member of the Victoria West United Church.

The funeral of Miss Florence Regina Fitzpatrick took place from Hayward's B.C. Funeral Chapel Saturday afternoon, at 1.45 o'clock, proceeding to St. Andrew's Cathedral, where service was conducted by Rev. Father Gaudette, at 2 o'clock. A large gathering of friends attended with beautiful floral offerings. The pallbearers were: Captain E. M. Cavin, T. F. Monahan, E. L. Tait, D. A. S. McGregor, Dr. J. L. Thompson, and M. McDonald. The remains were laid to rest in Ross Bay Cemetery.

Many friends attended the funeral of Thomas Gilman, 1774 Haultain Street, at 2 o'clock at the Thomson and Petherly Funeral Home. Rev. W. G. Wilson, D.D., of the First United Church, officiated. The service was conducted with many beautiful floral offerings. The hymn, "Lead, Kindly Light," was sung. At the close of the impressive service, a vocal solo, "No Night There," was rendered by Mrs. S. M. Morton. The remains were laid to rest in the family plot in Ross Bay Cemetery. The pallbearers were: Alderman W. T. Strath, E. K. Heath, Robert Pettigrew, W. H. Kinsman, John Irvine and William Dismore.

There passed away suddenly at noon today, Thomas Gilman, 1774 Haultain Street. The late Mr. Gilman was born in England on December 17, 1852. For the last eighteen years he has been a resident of Victoria, where he was engaged in the dairy business. He is survived by his widow and one son, John B. in Victoria and three daughters, Miss B. H. Gilman, Vancouver; Mrs. H. McHugh Dieringer, near Seattle, Wash.; and Mrs. T. W. Scott of Cumberland. The remains are resting at McCall Bros. Funeral Parlors. Announcement of the date of the funeral will be made later.

There passed away yesterday in this city, Mrs. Margaret Campbell, aged sixty-nine years. She was born in Buchlyvie, Scotland, and had been a resident of Victoria for twenty years. Her late residence was at 362 David Street. There survive her husband, Angus Campbell, four sons and three daughters, John of Portland, James, Angus and Martin of California. Mrs. J. D. Pierce and Mrs. C. H. Richardson of California, and Mrs. C. H. Cross of 704 Lamson Street, Esquimalt, and seven grandchildren. The funeral will take place on Wednesday, June 10, at 2 o'clock, from the Sands Funeral Chapel. Rev. Dr. Clem Davis will officiate and the remains will be laid to rest in the Royal Oak Burial Park.

Funeral service for Mrs. Helen Myrtle Kennedy will be held to-morrow afternoon at 2 o'clock at Hayward's B.C. Funeral Chapel. Interment will be in Royal Oak Burial Park.

## PRISONERS LOSE PLEAS MADE TO APPEAL COURT

Eight Heavily-guarded Convicts Protest Unsuccessfully Against Sentences  
Allegation Prisoner Exhibited as Desperado in Chains to Be Investigated

Ten personal appeals by prisoners serving sentences, were dealt with by the British Columbia Court of Appeal this morning at the court house, eight being dismissed and two being reserved until to-morrow for further hearing on a point of court procedure. Eight men, under a guard of five provincial police officers, were present in court.

In Rex vs. Mooney and Newman, with W. M. McKay, K.C., for the Crown, Chief Justice Macdonald dismissed the appeals after he had read written statements of the evidence. The two men were not present to plead against their conviction by Judge Cayley on a joint charge of conspiracy to defraud.

In Rex vs. Crockett the appellant was an epileptic one-legged seller of shoes and pencils in Vancouver. He was convicted by Magistrate Shaw of having passed a worthless Mexican bill on a Japanese woman lodging house keeper, receiving \$9.25 in change. Mr. McKay stated that a police officer had testified that the prisoner had known the bill was bad four hours before he passed it on the woman. The appeal was dismissed. The prisoner was carried out of the courtroom by police officers after he had collapsed on the floor in a fit.

**VICTORIA CASE**  
In Rex vs. Croft the appeal was against conviction by Judge Lampan on a charge of stealing a motor car. The prisoner, a Chinese, pleaded that he was sentenced to two years imprisonment while his associate Carson had only received one year. He admitted having car keys and plates off another car and having driven the car to the car stolen. H. A. Beckwith, Crown counsel, stated that a witness had testified the accused had endeavored to drive the car. The appeal was dismissed.

**HAD BAD RECORD**  
In Rex vs. Sproat the accused had been tried by Mr. Justice Murphy and a jury at Vancouver on a charge of passing a counterfeit bank note and a loaded revolver. He admitted a previous conviction for highway robbery with violence, for which he had been sentenced to three years and fifteen years. Sproat asserted that when arrested he was carrying the kit to the police to be surrendered for a friend in jail. He believed that an enemy had advised the police that he was carrying the kit, and as a result he was charged with passing a counterfeit bank note and a loaded revolver. The appeal was dismissed.

**REPORT MISSING**  
The Court adjourned hearing the joint appeal of John Mitchell and John Goldbold against a conviction of stealing an automobile, but Goldbold's appeal was set aside for a preliminary hearing on April 28 the trial date was set for May 14. He declared that after the two accused had been taken from the courtroom the date of trial was changed to May 7, they being in the cells at that time. Their protests had been over-ruled by Judge Ruggles, the Court adjourned until to-morrow morning to permit the defence to be presented. A. M. Johnson, K.C., appeared for the Crown.

**USED HAZARD**  
Charles Olson, of Prince Rupert, lost his appeal against a sentence of four years imposed at the Prince Rupert Assizes by Mr. Justice W. A. Macdonald on conviction of having slashed W. Scott with a razor. The prisoner declared he was intoxicated at the time and had been insulted, but was confident he had not wounded with intent to maim, as charged. Mr. Johnson said the prompt attendance of a physician had saved the wounded man's life, there being five severe face and body wounds. Charges by the prisoner that he had been exhibited in public in shackles, as a bad man, would be made the subject of a special police inquiry, the court was assured by Mr. Johnson.

**DESTROYED TREES**  
The Court rejected the appeal of Eric Seeger against a conviction by Judge Brown at Penitentiary on a charge of having maliciously destroyed a number of fruit trees at Oliver. The prisoner, a German, asked an interpreter to provide him with a German interpreter who provided he spoke good English when he refused the aid. It was shown that he had bought pruning shears, had left his home at that point and returned at 3.30 o'clock the next morning, making comments which coupled with inability to otherwise account for himself, had led to conviction.

The Court upheld conviction of Edward John Miller at New Westminster by Judge Ellis on a charge of short changing.

**DEATH CALLS**  
**REV. J. PRATT**  
Had Worked as Missionary in India For Thirty-six Years

A former Wesleyan Methodist Church missionary, Rev. Benjamin Pratt, died yesterday, Sunday, June 7, at the family residence, Carey Road, in his seventy-eight years.

Born in Bradford, England, he came to Victoria four years ago from Calgary, Alberta. He served as a missionary with the Wesleyan Methodist Church in Hyderabad, India, for thirty-six years. He leaves a widow, one daughter, Mrs. H. H. Harper, Calgary, Alberta, and four sons, Henry Pratt, New Zealand; Benjamin Pratt, New Zealand; John Pratt, of this city; Geoffrey Pratt, Calgary; and Harold E. Pratt, Victoria.

Funeral service will be held Tuesday afternoon, June 9, at 2.30 o'clock from the parlors of the S. J. Curry and Son Funeral Home. Rev. J. Sharp will officiate and interment will be in the family plot at Royal Oak Burial Park.

Stephen Healey, who appeared in City Police Court this morning on a charge of begging, was remanded to to-morrow for sentence.

A small fire at 578 Bay Street was attended by the fire department this morning, and a grass fire at Clover Point shortly after 1 o'clock gave one engine a run.

Under the auspices of the T.V.A. Branch of the Canadian Legion, a musical recital will be held at the Empress Hotel next Friday at 8 o'clock.

To-morrow evening the Amalgamated Civil Servants (Victoria Local Council) will hold their regular monthly meeting in the Law Chambers, commencing promptly at 8 o'clock.

Rev. W. G. Weston, the business man evangelist, will speak at the Christian and Missionary Alliance here, Tuesday, Yates Street, to-morrow and Wednesday evenings at 8 o'clock. Mr. Weston is passing through the city and is noted for his interesting addresses.

Joe Gunn, Chinese, was sentenced to six months when he was found guilty in City Police Court this morning of having opium in his possession. Billy Yee, charged with a similar offence, was remanded for judgment after the hearing.

The first annual reunion dinner of the Third Canadian Field Ambulance will be held in Vancouver next Saturday. Any friends and members can make reservations by communicating with S. A. Cheeseman, 119 Rogers Building, Vancouver.

The Victoria Women's Institute held an enjoyable tea on Friday afternoon last at the headquarters in the Union Building. Those who contributed to the programme were: Mrs. Lillian Sweeney, Mrs. J. L. White, Miss Strath, Mrs. R. Lefevre. At the conclusion of the programme tea was served by Mrs. Waite, Mrs. Adams, Mrs. Luxton and Mrs. N. Fairweather.

Preliminary hearing of Robert Clough on a charge of stealing an automobile opened in City Police Court this morning and was adjourned until Wednesday for further evidence. It was alleged a car was secured from Jameson Motors Limited for a trial and was not returned until Clough was arrested. He followed the car to the police station where he intended to purchase the car. H. Tait is defending.

The British Columbia Government accepted \$50,230 in accepting the tender of Tait Pipe & Foundry Company Ltd., Vancouver, for school tanks so that it might place the tanks in the province. It was revealed in the list of tenders made public by Hon. Joshua Hinchcliffe, Minister of Education, on Saturday. The tender was for 1,770 tanks for \$10,109, an amount slightly above that of a Preston, Ontario, firm.

Trial of the action of George W. Hensworth, 2610 Tinto Street, for collision damages and hospital and medical bills, was resumed before Judge Lampan to-day. Mr. Marchant, who was able to take the box this morning and complete his evidence for the defence. The judge reserved his decision.

Pro Patria Branch of the Canadian Legion staged a successful smoking concert in its clubrooms, 625 Courtenay Street, Saturday evening. The artists included Frank Merryfield, the Cornish magician; J. Spiera, banjoist, and W. Booth, C. Durham, A. Jackson, J. Cowen, C. Prescott, E. Baldwin and T. Wilson, vocalists. J. Collins, chairman of the entertainment committee, was in the chair. F. Cole acted as accompanist.

At a winding-up meeting of the committee in charge of the Saanich Pioneer Society's annual banquet, resolutions of appreciation were passed to all the speakers and artists who contributed to the pleasure of the evening. Also to Mr. Lamont of the Growers' Wine Co., Father Scheel of West Saanich, Mr. and Mrs. George King of Sanction. Mr. and Mrs. Burr of Sidney, and the waitresses and waiters were also thanked. The banquet was voted an unqualified success.

Two large orders for lumber were placed with British Columbia firms recently. It was announced at the Parliament Buildings that the sale of 4,000,000 feet of mining timbers to a concern in Port Pirie, Australia, and an order for 1,500,000 feet of six-by-four heavy cross-ties to the London and North Eastern Railway, constituted the transactions. These sales were looked upon with great favor by the Legislature. Building in view of the fact that many of the other markets had been declining.

**TRAVEL GUILD HOUSE PARTY TOURS LISTED**

Ten special parties from eastern and central sections of the United States will arrive in Victoria during the next ten weeks under the auspices of the Travel Guild House Party Tours.

Reservations have been made at the Empress Hotel for four parties arriving here June 27, July 4, 11, 18 and 25, and August 2, 8, 15, 22 and 29, it was announced to-day.

**SANDS BUILDING IS GOING AHEAD**

Construction work has been started by Luney Bros. Ltd. on the new undertaking parlors which are being erected at the north-east corner of Quadra and North Pender Streets for the Sands Funeral Company.

The cost of the general contract will be in the neighborhood of \$30,000, while the completed building, with furnishings, will probably bring the total figure up to \$40,000.

Luney Bros. are also handling the contract for extensive alterations to the premises of the B.C. Funeral Company on Broughton Street.

## LOCAL MODEL FLIER SHINES AT B.C. MEET

Freddy Pearce, Victoria Champion, Heads R. O. G. Class at Vancouver

Freddy Pearce, Victoria city model aircraft champion, won the outdoor R.O.G. (rise off ground) event with a record flight of three minutes two and four-fifths seconds. In the second annual provincial model aircraft championship at the Sea Island airport, Vancouver, Saturday afternoon. He was also third in the class for outdoor fuselage models and was the only out-of-town competitor at the meet to place in the six events.

Ross Parquharson, seventeen-year-old Vancouver boy, who was Canadian champion last year and who recently set a world's record for Wakefield fuselage models, captured the B.C. championship with two firsts and two thirds. Al Salonen and Leigh Begg, both of Vancouver, were second and third, respectively. The three will probably be chosen to represent the province at the Canadian and international championships in the east.

**BEST TIME**  
The best time of the day was set by Begg in the indoor flying class event in which his tiny model stayed aloft for six minutes forty seconds, a new Canadian record. Parquharson set another record in the indoor fuselage class of 3 minutes 15 1/2 seconds.

In addition to Pearce, Jimmy Haggart and Dick Robbins comprised the Victoria contingent. Haggart and Robbins entered the scale model class, results of which have not yet been announced.

Following are the detailed results:

**INDOOR**  
Flying stick—Leigh Begg, Vancouver, 6.40; Buddy Lister, Vancouver, 4.52; Ross Parquharson, 4.41 1/2.

Fuselage models—Ross Parquharson, 3.15 1/2; Al Salonen, 2.48; Fred Pearce, Victoria, 1.41.

R. O. G.—Fred Pearce, Victoria, 3.02 1/2; Buddy Lister, 2.58 1/2; Vic Stevens, 2.53.

**OUTDOOR**  
Flying stick—Ross Parquharson, 5.32; Leigh Begg, 5.31; Marshall Sharp, 4.25.

Wakefield models—Mac Thompson, 3.17; Al Salonen, 3.15; Ross Parquharson, 3.13 1/2.

Flying scale models—Al Salonen, 1.11 plus 35 points for workmanship; Victor Hill, 49 1/2, plus 61 points for workmanship; Billy Sharp, 37 seconds, plus 30 points for workmanship.

Take Star and Dinghy Events Respectively at Saturday's Races in Cadboro Bay

R. P. Bandy, in his star boat Boykin, and Humphrey Golby, in his dinghy Tern, captured the races and dinghy events held in Cadboro Bay Saturday afternoon under the auspices of the Royal Victoria Yacht Club. Many spectators from yachts in the bay, as well as parties along the beaches and rocks, watched the races with interest. Mr. Bandy, in the Boykin, took the lead in the race of the gun and the other boats in the race were unable to catch up. The Bluebird, skippered by Cliff Adams, and the Genie, with M. P. Bandy, followed close in the wake of the Bykin, almost together, until towards the end of the race Bluebird was cleverly sailed and crossed the finishing mark ahead of Genie, which at first was thought to be second. Mintaka, sailed by W. T. M. Barrett, did not cross the starting point until four minutes after the others and was unable to make up his race. The starting times for the star event were: Boykin, 3.44.35; Bluebird, 3.45.55; Genie, 3.47.45; and Mintaka, 3.50.50. Finishing times for the dinghy event were: Boykin, 4.15.55; Bluebird, 4.17.12; Genie, 4.17.37; and Mintaka, 4.20.45.

Early in the race for the dinghies it was seen the fight for honors was between the Tern and the Onaway, in charge of George Wallace. It was the Onaway that won last week, with the Tern in second place. So, by Saturday's race, the score was evened. The Tern was handled beautifully throughout the course and the clever maneuvers skillfully won the race. For third place Miss Helen Lindsay, in the Helen, did some smart sailing to cross ahead of "Ginger" Hotham's Puffin. Jim Golding, in the Kingfisher, was the fifth entrant in the race, but fell by the wayside along the course.

In the dinghy class on the first round, the boats passed in the following order: Tern, 3.57.20; Onaway, 3.59.50; Puffin, 3.45.12; and Helen, 3.47.35, and finished in the following order: Tern, 4.23.48; Onaway, 4.26.05; Helen, 4.34.50; and Puffin, 4.35.20.

# U.S. WINTER WHEAT NEARS 700,000,000-BUSHEL RECORD; CANADIAN CROP DROPPING

Grain trade to-day is facing the prospect of Canada having one of the smallest wheat crops in recent years, probably under 200,000,000 bushels, while United States winter wheat crop may set a high record around 700,000,000 bushels.

"Prospects are for record yields in the southwest and harvesting is already under way in Texas," The Chicago Tribune says to-day. "With good weather for the next few weeks, harvesting will be general."

"In the spring wheat sections of the northwest, grain is badly in need of rain and unless drought is broken in two weeks by liberal rains, the shortest crop in recent years is expected by U.S. and Canada."

"There are men in the trade who predict that Canada may not have over 200,000,000 bushels."

Indications to-day were that the winter U.S. wheat crop would be around 650,000,000 to 700,000,000 bushels. The government report on winter wheat, due Tuesday, is estimated to be around 675,000,000 to 690,000,000 bushels. The official estimate a month ago was 635,000,000.

To-day's weather report:  
Two hours rain Edmonton to Lacombe, showers Wetaskiwin to Hardisty, also at Kerrobert, Edmonton to Wetaskiwin raining hard.

Manitoba, clear to cloudy, 30 to 74, no rain.  
Saskatchewan, clear to cloudy, no rain, 40 to 92.  
Illinois, rain at most points reporting over the week-end, mostly clear this morning, 45 to 62.

"One of the encouraging features of late has been the comparative firmness of wheat in the face of withdrawals of support by the stabilization Corporation," The Journal of Commerce to-day says.

"This indicates the movement to market is not as liberal as the primary receipts would suggest."

## WINNIPEG

(By Logan & Bryan)  
Winnipeg, June 8.—Wheat: Outside of some buying of July wheat, the local market was only a domestic affair with a very small trade passing most of the day. Prices started unchanged to half higher, but the market gradually eased off to 1/4 to 1 cent under the close last Saturday, recovering fractionally but showing no profit. At the same time Chicago declined 1/4 cent, which was chiefly the cause of the decline in this market.

Chicago had a rally of 1/2 cent on short covering late in the session and Winnipeg quickly followed but this bulge did not hold. There is no doubt that the Winnipeg market is ready to advance to higher price levels, but can not get any assistance from outside markets. There was no business done in export channels of any account over the week-end.

Weather map to-day showed some good showers in northern Alberta, while showers were received this morning at Regina, Moose Jaw and a few other points in the south central Saskatchewan, but these showers are not sufficient to change the serious situation to any extent. A few scattered showers or thunderstorms are forecast for Tuesday.

Cash demand for wheat was only fair. Flour trade remains quiet. Weather in the southwest reported quiet favorable for filling, and it would seem that a tremendous crop of winter wheat is assured. The United States Government issues a report Tuesday afternoon giving condition and production of winter wheat and condition of spring wheat, coarse grains and pastures. The Canadian Government will also issue a report at the same time giving condition of field crops. Winnipeg futures closed 1/4 lower.

Coarse grains: These markets were all somewhat sharply lower, some scattered liquidation in evidence, which found a poor demand. There was no export business reported in anything and the domestic demand was very quiet. It was reported that the German Government had sharply reduced duty on barley and this will probably bring in new business shortly.

Flax: This market was also weak with very little going on. Closing price 2 1/2 to 1 cent lower on closing price.

Liverpool due 1/4 lower on Winnipeg.

# WALL ST. PULLS MONTREAL UP TRADING VOLUME RISES IN TORONTO

(By Logan & Bryan)  
Montreal, June 8.—Montreal Stock Exchange listings turned stronger with the afternoon session of trading and price-leading issues were up or near their highest level of the day when trading ceased.

The sales volume, however, did not show any appreciable pickup with the uptick in quoted value.

(By Logan & Bryan)  
Montreal, June 8.—About the only influence evident in Canadian stock markets to-day was exerted by Wall Street and the steady improvement in prices there after the first half hour found moderate reflection through Canadian list. However, our stocks were notably dull all through the session and their late advances were along more conservative lines than was true in New York.

Montreal Power was an instance of this. The stock was heavy in the early dealings, dropping nearly 1 point to 40 1/2, on the recovery, it gained 40 1/2, and closed at 42, but the move did not carry with it any of the exciting qualities evident in last Thursday's advance. Dominion Bridge was another feature of to-day and after losing 1/2 to 28, it rallied with the market to the close at 29 1/2.

The general Canadian list did not get very far, most rallies of the session being confined to fractions in connection with lower-priced stocks, with Smeltzer an exception with a recovery of 3 points from days low at 92 and Bell Telephone with a gain of 3 points to 13.

The oils as a group were in better tone, but did not seem to be moving under any particular influence other than that of the general market. Buying power did not expand materially in the latter part of the session, although certain issues, such as Montreal Power, Dominion Bridge, Nickel and Shawinigan became rather more active.

The oil character of present stock markets reflects the uncertain stock enjoyed by the public at present, but it is pointed out that the stage seems to be pretty well set for more constructive price tendencies later on with margin requirements reduced and a plentiful supply of credit available.

# NEW YORK STOCK EXCHANGE

MONDAY, JUNE 8  
(By Logan & Bryan)  
Toronto, June 8.—Renewed activity among the lower-priced and specialty issues on the mining market was reflected in increased sales to-day, total for the session of 541,113 shares comparing with 322,628 last Friday. Tone of the whole board showed improvement with gains predominating on end.

Advances of from 25 to 1.00 were registered in Tech-Rugles, Lake Shore, Dome and McIntyre, while Wright Hargreaves was up ten and Granda five. Mining Corp. failed to respond, price easing ten to 1.90.

In lower-priced golds Big Missouri, San Antonio, Sisco, Sylvanite, Kiril and Gold and Vicon were up from two to five cents. Moffatt-Hall failed to respond, price easing ten to 1.90.

Normanda and Nickel, firm all day, came ahead in the afternoon to close up 50 and 70, respectively. Lindseys were holding with a slight exception of Sheritt-Gordon which closed off a couple.

Homestead and Chemical Research gained ten apiece, Santa was up four, but Meridian eased a cent and Acme Gas failed to move.

### Sophisticated Comedy With Edmund Lowe On Playhouse Screen

"Don't Bet on Women" Was Filmed on Yacht and Is a Story of Modern Love

Patrons of the Playhouse Theatre are in for a real treat this week, where the Fox Movietone, "Don't Bet on Women," opens its run. This is the smart and sophisticated comedy of love on a yacht and in a drawing-room, which has been winning the praise and plaudits of critics and audiences alike, wherever it has been shown.

Edmund Lowe, the leading male role, that of the debonair man-about-town, who thought that all women were bad, and found himself in no end of trouble when he attempted to prove it. Opposite him, plays lovely Jeanette MacDonald as the fascinating lady who cured him of betting on the fairer sex. The supporting cast is one of comedy notables, including such eminent favorites as J. M. Kerrigan, Roland Young, Una Merkel and Helene Millard. William K. Howard, who directed Lowe in the Fox Movietone, "Scotland Yard" and "Good Intentions," directed this production from an original story by the well known writer, William Anthony McGuire.

## JOHN BOLES IN "SEED" IS AT THE CAPITOL

Genevieve Tobin and Lois Wilson Also Have Leading Roles in Triumph of Screen

The first screening of "Seed," Universal's problem drama, which opened an engagement to-day at the Capitol Theatre for a six-day run, constitutes an unusually interesting event in local theatrical circles. In a word, it is one of the best talking pictures ever made and will make a strong bid for first honors as the outstanding picture of 1931.

As a human document, written and acted with a sincerity and naturalness that has never been surpassed, it ranks very high. In these qualities it is alongside "All Quiet on the Western Front," and that's the highest praise that can be given any picture.

Adapted from Charles G. Norris's much-discussed best seller, the principal roles of the picture are enacted by a trio of players whose performances are admirable. John Boles is seen as the husband and father whose latent abilities as a writer have been adversely affected by the fact that he must continually devote himself to the difficult task of supporting a large family of children. The handsome Boles delivers a fine performance in a dramatic role, and proves that he can register a distinct hit in a part that does not call for the use of his singing voice.

The role of the boyhood sweetheart who again enters the life of the writer ten years after his marriage is played by Genevieve Tobin, a comparative newcomer from the stage, who brings to the screen a vivid personality and a large measure of beauty and ability. The third character in the "triangle" is played by Lois Wilson, long a favorite of theatre-goers. She gives an extraordinary performance in the role of wife and mother—restrained, compelling, sincere—a triumph of natural acting.

### Fascinating Picture Of Wild Animal Life At Dominion Theatre

"Trader Horn" Shows Wildest Animals of Savage Africa in Their Native Haunts

Thrills of the wildest jungles, beasts in their struggles for life, savage tribesmen in the strange, fantastical and deadly rites of the juju; crocodiles, rhino—every peril an explorer could face—these are filmed, with actual sound, in "Trader Horn," Metro-Goldwyn-Mayer's gigantic pageant of savage Africa now playing at the Dominion Theatre.

But it differs from anything of the kind ever seen, for its thrills and its wonders surround a dramatic story—the tale of the adventurous trader, his apprentice and the beautiful "White Goddess" of the savage lovel. The famous book lives in actuality, as, in the original locale of its dramatic narrative, it is enacted in talking pictures. Not only the voices of the actor, but the voices of the jungle are heard. The roars of the lions, the songs of the

jungle birds, the eerie laugh of the hyena and the deep-throated gurgle of the crocodile—all these were recorded on the spot, with the first and only sound apparatus ever taken into Africa.

### Young English Actor Takes Leading Role In Coliseum Picture

Jack Raine, Who Gained Popularity in "Middle Watch" Returns Here in "Night Birds"

The many admirers of "The Middle Watch" will remember the fine work put in by the "Commander" played by Jack Raine. It is interesting to learn that Jack Raine will be seen this week in the new British International picture, "Night Birds." He will be seen in a much more important role than for-

merly—that of Detective-sergeant Cross of Scotland Yard—in a picture of the smart underworld of London. The United States press described this sensational play as the last word in snappy direction. It deals with a mysterious London character, "Flash Jack," who has a mysterious way of his own of dealing with his victims. Jack Raine puts in excellent work as the detective assigned to the tracking down of this troublesome gentleman. "Night Birds" is now showing at the Coliseum.

Should a Wife Talk Before Breakfast?  
Considers 7 to 9 a.m. Zero Hours in Marriage

## Dorothy Dix

**The Husband Who Would Divorce His Wife Because She Won't Speak Before Breakfast Probably Knows His Own Mind, but Most Husbands Would Be Thankful for Silence in the Danger Hours Between 7 and 9 a.m.**

KENTUCKIAN is suing for divorce because his wife refuses to speak to him before breakfast. Why anyone should crave conversation at that unholy hour of the day must forever remain one of the inscrutable mysteries of taste which defy all analysis and explanation.

One can only look at such a one with wonder and amazement and reflect that some men never know their luck. For most of us the pre-breakfast time is a season when we not only prefer to be in the silence ourselves, but like to see about us to do so also, and, thing, generally speaking, would do to endure a wife to her husband for her to hold her peace until after he has had his second cup of coffee, and is soothed and fed and settled and safe to be spoken to.

Any husband can imagine a man asking for a divorce from a woman who got up in the morning with her tongue moist and refreshed after a night's slumber, and who went right into action with all the things she had left unsaid on the previous evening. But parting from a wife who is dumb in the early morning, no. Never. The thing is unthinkable.

Still, of course, if a man likes them chatty in the dawning, he likes 'em at any time, and there is no arguing about it any more than there is about a preference for snails or jazz music. And what's a poor wife to do if she gets worried if she does or if she doesn't?

But this matrimonial episode stresses again the fact that the breakfast hour is the zero hour in family life, when husbands and wives go over the top to do things and say things to each other that they would be incapable of doing and saying the balance of the day. Why this should be so, and why the breakfast table should be made a battleground where every disagreement should be fought out to a bloody finish, we do not know. We merely know that such is the case.

Appearances and manners reach their lowest ebb at breakfast. The wife who is herself up for her husband's homecoming in the evening has no hesitation appearing at breakfast with her hair in curlers and cold cream on her face. The man who is entertaining and witty at the dinner table hides behind his newspaper at breakfast and grows out inarticulate replies when he is asked a question. If either party has any unpleasant communication to make, he or she reserves the breakfast table at which to do it, although each knows that it is a time at which nerves are rawest, and one's philosophy least able to bear a strain upon it.

It is at the breakfast table that wives ask for money, and husbands go into tirades about extravagance and the necessity for cutting down expenses. It is at breakfast that wives announce that Mother is coming for a nice long visit, and the doctor says that little Johnny must have his adenoids out, and that the Joneses have got a new car, and that they don't see why they have to keep on riding around in one that looks like a dump cart.

It is at breakfast that husbands find fault with the coffee and criticize the housekeeping and demand to know how it is possible for anyone to boil eggs 25 times a year and never learn how to do it right. It is at breakfast that father and Mother both turn their attention to their unfortunate offspring and send them weeping from the table because they spot the cloth or brought a bad school report.

Indeed, it is not too much to say that it is at the breakfast table that domestic peace and harmony are put on the spot and assassinated, and if there were only some way in which to eliminate the dangerous hours from 7 to 9 a.m. it would do more than any other one thing to stop divorce.

Most wives and husbands are so accustomed to the breakfast-table row that they accept it as one of the inevitable drawbacks to matrimony and they fail to teach the significance to it that it deserves. They know that by evening they all have gotten over their own peevishness and forgotten the mean things they said, and they trust that the party of the other part will do the same, and change all up to the early morning grouch.

But the breakfast-table quarrel does not end with the man jamming on his hat and clanking the door behind him, and the woman wiping her eyes on her napkin and starting to make out the grocery list. Each has given the other an impression that he or she will carry all day.

The man has with him the picture of a frowny woman, her face set in fretful lines, who has said things to him that were like the cut of a whip across his sanity. How inevitable that he should contrast a wife with whom he has had breakfast-table quarrels with his epic-and-span young secretary, whose business is to smile upon him and yes-yes him!

And the wife, left to mull over all day, while she goes over her housework, her husband's acid strictures upon her housekeeping and the way she manages the children and her general personal appearance, makes mountains out of mole hills, and forgets all of his goodness and kindness and remembers only the things he said at breakfast, and breaks her heart over thinking he has ceased to love her. Or else goes out and does foolish things by way of revenge.

So any fortune-teller might well warn any bridal couple to beware of the hours between 7 and 9 a.m. and to move warily within them. And not to talk! DOROTHY DIX.

### Bridges of the Ancient Romans

In early days of man's history, rivers must have kept people from moving freely from place to place. When a river was shallow, a man could wade through it; but when it was deep and wide, only expert swimmers could cross without help of some kind.

It may be that soon after horses were tamed, riders learned to force their steeds to swim across difficult rivers; but the chief help came from three inventions—the raft, the boat and the bridge.

The idea of making a bridge may have come when men saw a tree which the wind had blown down so it lay across a narrow stream and could be used for passing from side to side.

If nature could make such a bridge, it was possible for man to do likewise. And the little, crude, but better bridges were built than nature could make.

bridge is given to the Romans. The arches were not long—few of them spanned more than sixty-five feet. Modern arches are far longer. The Selkirk Mountains of British Columbia has a length of 336 feet, and other arches are still longer.

The Romans built many "aqueducts" to transport drinking water from hills and mountains to cities. The aqueducts stretched across valleys—sometimes there was a river beneath, sometimes the valley was dry. The idea was for water to flow by gravity from a high place to the city, without any "dip" along the way. Trenches in bridge-like parts of aqueducts were often used for passage of the water. The famed Roman aqueduct called "Pont-du-Gard" has a series of arches which, all told, measure 800 feet. This aqueduct has been repaired, but much of the original is believed to be there today.

Romans used concrete in making bridges and aqueducts. Their concrete was prepared by mixing reddish soil (a kind of cement) with water, lime and pebbles. Travertine—crystal-colored limestone—and tufa stone were also widely used.

**ROMANIAN ELECTIONS**  
Bucharest, Romania, June 8.—The government parties won sixty out of the seventy-one seats in the municipal and district elections. The Peasants' Party got eight, the Independents, two, and the Dissident Liberals, one.

Mr. And Mrs.—

OF COURSE WE'LL GO. WE MUST. THEY'D BE OFFENDED IF WE DIDN'T. JUST THE SAME, I HATE WEDDINGS.

WE'LL, I S'POSE WE OUGHT TO BE GOING DOWNSTAIRS TO CONGRATULATE 'EM. WAIT A MINUTE, DID YOU EVER HEAR THIS ONE?

OH, I'M AWFULLY SORRY, BUT THE BRIDAL PARTY IS GOING DOWN NOW AND OUR DINING ROOM IS SO SMALL.

QUICK, JOE! I HEAR THEM GOING. GET SOME RICE TO THROW! COULDN'T I THROW THIS CHICKEN SALAD? IT'S NEARLY ALL CELERY.

Mutt And Jeff—

MUTT, WHERE WERE YOU ON THE NIGHT OF JUNE 2, 1879? ER—THAT IS—WHY—

DON'T CHANGE THE SUBJECT. WHERE WERE YOU ON THE NIGHT OF JUNE 2, 1879? ER—THAT—ER—HUM—ER—

WHERE WERE YOU ON THE NIGHT OF JUNE 2, 1879? WHY—ER—YOU—I—ER—

WHERE WERE YOU ON THE NIGHT OF JUNE 2, 1879? ANSWER ME, OR I'LL SMACK YOU AGAIN! JUDGE, I DON'T KNOW—BUT I WISH I WAS THERE NOW.

The Gumps—

NOW—I'VE TOLD YOU FOR THE LAST TIME—THAT YOU ARE NOT GOING TO GET THAT TOM CARR STOCK—AND I'M NOT GOING TO SELL THE STOCK. IT'S MINE—AND I'M GOING TO HANG ON TO IT—AND QUIT BUTTING IN ON MY AFFAIRS—

DON'T RAISE YOUR VOICE—THIS IS NOT A FOREST YOU'RE IN—YOU'D THINK YOU WERE SOME WILD BEAST ABOUT TO POUNCE ON ITS PREY—

MY ADVICE TO YOU IS TO CALM DOWN—THIS LITTLE PROSPERITY THAT YOU HAD HAS TURNED YOUR HEAD—MAKING \$250,000.00 SO EASILY IS TOO MUCH FOR YOU—YOU'VE GOT TO THE POINT WHERE YOU THINK YOU'RE KING AROUND HERE—WELL—YOU'RE NOT GOING TO SIT THERE AND TALK TO ME AS THOUGH I WERE YOUR SLAVE.

WELL—WHAT DO YOU EXPECT ME TO DO—WHEN YOU COME IN HERE TO BAWL ME OUT ABOUT THAT MONEY—EVERY FEW MINUTES—SIT HERE AND ACT LIKE A LITTLE LAMB?

Ella Cinders—

It doesn't seem to be meeting with much success in her efforts to ascertain just who Patches really is.

MISS CINDERS, I'D TELL YOU WHO BRUCE BENTLEY IS IF I COULD TRUST YOU, BUT A SECRET IS AS SAFE WITH MOST WOMEN AS AN ELEPHANT TIED WITH DENTAL FLOSS!

I-I DON'T THINK S-SO. YOU'VE GOT ME SO SCARED I'M BESIDE MYSELF!

I CAN'T GIVE YOU MUCH INFORMATION CONCERNING YOUNG BENTLEY, BUT I CAN GIVE YOU A FAIRLY GOOD-SIZED BARREL ABOUT HIS FATHER!

Bringing Up Father—

HERE COMES A WORKIN' MAN WITH HIS LUNCH—HE'S GOT THE KIND OF FOOD I LIKE TO EAT—I WONDER IF HE'LL SELL IT?

I'LL GIVE YOU FIVE DOLLARS FER THAT PACKAGE.

NOW FER A QUIET PLACE TO GET DOWN AN' EAT—I'LL BET HE'S GOT CORNED BEEF AN' CABBAGE IN THIS—

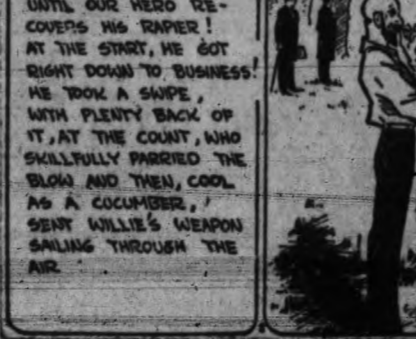

I WUZ TAKEN IN! IT'S JUST A WORKIN' MAN'S SHIRT!

Boots And Her Buddies—

THE STRUGGLE BETWEEN SKILL AND BRUTE FORCE IS WAITED TEMPORARILY UNTIL OUR HERO RECOVERS HIS RAPID! AT THE START, HE GOT RIGHT DOWN TO BUSINESS. HE TOOK A SWIPE WITH PLUMPY BACK OF IT, AT THE COUNT, WHO SKILLFULLY PARRIED THE BLOW AND THEN, COOL AS A CUCUMBER, SENT WILLIE'S WEAPON SAILING THROUGH THE AIR.

HA HAH HAAAAA

SPEN—SOMETHING UNFORSEEN BY ANY OF THE GALLANT GROUP, HAPPENED! WITH A SWIFT AND A BELLOW OF RAGE OVER THIS INVASION INTO HIS DOMAIN, A HUGE BEAST CHARGED IN AND SCATTERED ALL BEFORE HIM, EXCEPT WILLIE, WHO WAS TOO PUZZLED TO EVEN NOTICE HIM—

LEHME SEE—NOW HOW TH' DICKENS DID HE DO THAT?
